AUBURN ALUMNI ASSOCIATION

SEPTEMBER, 1971

AUBURN, ALABAMA

Fall Quarter Students Will Find A Growing Auburn

A DEGREE FROM DAD—Mama adjusts her cap while Dad waits to take his daughter to summer graduation. Later in the afternoon, Dr. Harry M.

Philpott presented a B.S. in education to his oldest daughter, Jean Todd Philpott. Jean is already working, teaching mathematics in Birmingham.

Auburn University expects to enroll more than 14,000 students on its main campus for the beginning of the new academic year Sept. 22. According to Dr. Wilbur A. Tincher,

director of Educational Services, the combined enrollment of the main campus and Auburn University at Montgomery will reach well over the 15,000 mark.

At Montgomery, students will be attending classes on an all-new campus where moving began this month from temporary quarters in downtown Montgomery. The new 500-acre campus is located east of Montgomery near I-85. Two buildings have been completed and a third is under construction.

On Auburn's main campus, development continues at a steady pace. Of particular interest to students will be the expansion of the Union Building for which a Housing and Urban Development debt service loan has been approved.

Plans for Union

Architects are developing plans for the three-story addition to the Union. The plans must be submitted to HUD for approval before bonds can be sold for the building program.

Plans include the renovation of the existing Union to improve dining facilities and to air condition the building throughout. The addition will provide more office space for student activities and more conference rooms.

Landscaping and final work on the School of Veterinary Medicine facilities on Wire Road were completed during the summer. The school, which was occupied during the spring quarter, will be formally dedicated on Nov. 7.

Work is well under way on the new Theatre which is a part of the Fine Arts Center planned in Auburn's long-range building program. Also under construction is the first phase of the Fisheries Building.

Pharmacy Plans

A committee to make recommendations for the new School of Pharmacy building program has been named by President Harry M. Philpott. Funds for this new facility were provided by the Alabama Legislature during the special session this year.

New Option

Freshmen interested in the technical sciences will be offered the option of studying a new three-quarter sequence, "Technology and Civilization," as an alternative to the "World History" sequence. This new curriculum, involving the historical study of the interaction between technology and other aspects of human culture, will be taught by Dr. W. David Lewis who has been appointed Hudson Professor of History and Engineering at Auburn, effective Sept. 1.

Auburn now has two Hudson Professors, made possible through an endowment from the Callaway Foundation Inc. of LaGrange, Ga. The objective in establishing the Hudson chairs is the strengthening of Auburn's freshman study program. The other Hudson Professor is Dr. Jay A. Young who teaches freshman chemistry.

Schaeffer Heads Psychology

Leadership of the Auburn University Department of Psychology has been assumed by Dr. Robert W. Schaeffer, who was appointed professor and department head at the beginning of the summer quarter.

Dr. Schaeffer replaces Dr. William D. Spears, who has resigned after ten years of service as head to devote himself full-time to teaching and research in the departmental program.

Dr. Schaeffer, who came to Auburn from Florida State University, holds degrees in clinical and experimental psychology from Franklin and Marshall College and from the University of Missouri at Columbia.

Taught at FSU

In addition to serving for ten years on the FSU faculty, Dr. Schaeffer has taught at the University of Missouri and served as consultant to VA hospitals, the U. S. Naval Radiation and Defense Laboratory, and the Georgia Medical College.

His wife, Marilyn, is also a clinical psychologist and has worked with a number of mental health clinics in Florida. The couple has two sons, Russell

Wayne, 2 years, and David Carlton, 9 months.

Dr. Schaeffer has stated that as he works with the faculty to strengthen both undergraduate and graduate programs he hopes very much to retain "the close student-professor association that

has become traditional in the programs of the Department of Psychology."

SCHAEFFER....Psychology

Fall Brings First Black Faculty

Auburn will have its first black faculty members when classes start September 22, and Mrs. Josetta B. Matthews and Dee C. Madison, III, begin their work. Mr. Madison will

work as an admissions counselor in the office of High School and as Junior College Relations and specialist. Mrs. Matthews, who is completing a doctorate in education at Auburn, will teach one-third time in the History Department.

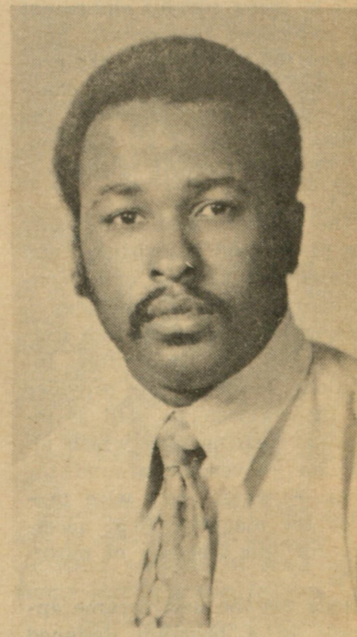

Mr. Madison completed a Master of Education in student personnel guidance and counseling at Tuskegee Institute in August, where he received a B.S. in industrial education in 1970. He was an offensive tackle on the Tuskegee football team from 1965-1969.

According to Dr. Wilbur Tincher, director of educational services, Mr. Madison, in his work as admissions counselor, will

work principally in recruiting qualified black applicants for admission to Auburn.

Mrs. Matthews holds the B.A. from Indiana University and a master's from Auburn. She will teach American history fall quarter, American black history winter quarter, and either black history or American history in the spring. Auburn has offered a black history course for three years.

Although Mrs. Matthews and Mr. Madison are Auburn's first black faculty, the University earlier had a visiting black professor and presently has two black graduate teaching assistants.

MADISON....Faculty

FIRST MASTER OF MUSIC—Joel Williams, band director for Lafayette High School and choir director of Jackson Memorial Baptist Church, is the first person to be awarded a graduate degree from Auburn University's Department of Music. Mr. Williams received the B.M. in 1966, and is a piano and theory major.

To Lafayette Band And Choir Director—

AU Awards First Master's in Music

Like other band and choir directors across the country, Joel Williams of Lafayette will probably have some arrangements for "Jesus Christ, Superstar" on his programs

this year. The rock opera which has raised the eyebrows and blood pressure of numerous adults is "an art form which is more than just a sign of the times," Williams believes.

It may be that the title—as well as the sound of modern music, although it contains folk, jazz and even the Charleston in it—is what makes some persons find it "sacrilegious." Few critics have listened closely to the words, he feels.

In many churches the folk song mass was also termed sacrilegious when it was first introduced. It has gained more acceptance of late, and Williams thinks that perhaps "Jesus Christ, Superstar" will, too.

Williams, the first person to be awarded the master's degree from the Department of Music at Auburn University, does not see modern music as "rebellion," but as communication. To communi-

cate, he says, sometimes translation is necessary.

He also feels that if anything significant is to come out of Christianity, particularly the organized church of today, the young people will be the ones to do it. And "Jesus Christ, Superstar" apparently says something to the young.

Williams was first graduated from Auburn University in 1966, receiving the bachelor's in music. As a piano major, he "went on the road," playing at various night clubs throughout the area.

Because his engagements were at night and on weekends, and he wanted more time with his wife, the former Judy Berry of Lafayette, and daughter Lori Anne, he became associated with public school music and then band director for Lafayette High School and director and arranger for the Jackson Memorial Baptist Church. He returned to Auburn last summer to begin his work in the graduate program.

Although he likes the music of the romantic period best—Chopin, Brahms, Liszt—he likes all types of music. Nor does he see any end to the new sounds possible through creativity and imagination.

Where early pop music was based around three chords, to-

day's music elaborates the harmony and melody, he says. Artists are always looking for new ways to say something and there is no limit of what may be composed in the future."

There is a cycle, however, apparent in today's popular bands. They are going back to the "big band sound" with larger groups and the inclusion of brass. He cites Blood, Sweat and Tears as an example.

With the new degree Williams hopes to teach theory or piano at the university level, and some day to enter a doctoral program.

But not for awhile. Right now he's more concerned about Lori Ann, seven, who will be undergoing heart surgery at the University of Birmingham Medical Center soon. It will be her second operation.

Faculty Chosen Outstanding

Twenty-one Auburn University faculty and administrators have been chosen Outstanding Educators of America for 1971 on the basis of their civic and professional achievements.

The administrators include Dr. Harry M. Philpott, president; Dr. W. S. Bailey, Vice President for Academic and Administrative Affairs and Dr. Ben T. Lanham, Vice President for Research.

Unique Unit Aids Deaf Children

by Dru McGowen

A piece of electronic equipment unique in its field and impossible to buy at any price is being used at Auburn University to help pre-school deaf children. It exists because of a cooperative effort between two departments.

The auditory unit was cooperatively designed by members of the Department of Speech and Hearing Clinic and members of the Department of Electrical Engineering. Engineering faculty and students built the unit.

It is the first joint effort of the two departments, with additional proposals now in progress, according to Dr. Frank Davis, head of Speech, and Dr. Chester Carroll, head of Electrical Engineering. Already equipment is being shared by the two departments, allowing research which might be impossible because of cost.

For example, a "real time analyzer"—a computer type instrument for instant analysis—is being used by both departments to analyze data.

Faculty, graduate students and undergraduates work together, pooling their ideas and time as well as using surplus equipment for expensive components. Success of the interdisciplinary project has also led to lecture sharing, with communication the thread that ties it all together. Dr. Richard Cornell is the lecturer.

The auditory unit is the only one of its kind in existence and unpatentable because of its conglomerate parts. It includes a phonograph, organ, rhythm generator and FM transmitter. Individual headsets are provided for the children, as well as individual hearing aids which allow for movement around the room. A wound coil wire provides the magnetic field necessary for this freedom of movement.

Need for the unit became apparent in a program designed

last year to meet the needs of children and parents in the eastern section of Alabama where services for the pre-school deaf child and his parents did not previously exist. Most important is the development and use of such equipment for new techniques by students who will be working in this area professionally.

The specific objectives of the program are to provide language development training, speech-reading, auditory training and hearing aid orientation for each individual pre-school deaf child enrolled. It also provides for their parents the skills necessary for an individualized home training program.

The auditory unit is actually a therapeutic device which can be used in a group situation, with calibrated headphone controls to accommodate each child's hearing loss.

Milla McCord, an Auburn graduate and Miss Homecoming for 1967, is supervisor of the pre-school deaf education class, under the direction of Dr. Curtis R. Smith, director of the Speech and Hearing Clinic. Some 40 deaf children have been identified in Lee County. There are eight satellite clinics throughout the state.

James Boddie of Tallassee, named outstanding engineering student in June and given the President's Award, did much of the actual work on the machine. Now interested in bio-communications, he will attend Massachusetts Institute of Technology on a bio-medical research tuition fellowship this fall.

According to Dr. Smith there is on surplus of jobs in the area of speech pathology and audiol-

ogy. Students have jobs waiting for them before they graduate. There are currently 138 undergraduate and 15 graduate students enrolled in the curriculum.

TRAINING—An auditory unit, unique in that it was especially designed and made by faculty and students in the Departments of Speech and Engineering at Auburn University, is being used as a training device for pre-school deaf children. James Boddie of Tallassee, a spring graduate

and recipient of the President's Award for the School of Engineering, did much of the work on the machine. Supervisor of the class is Milla McCord, with students Mance Westbrook of Alexander City and Michael Whitman of Notasulga.

HUD Grant Permits Union Building Expansion

Despite the tight funds situation, Auburn's plans for expansion of the Student Union Building will go ahead as a result of a debt service grant from the Department of Housing and Urban Development.

The grant, which provides an interest subsidy, had been approved earlier for housing but was redirected at the University's request to provide the expanded Union facilities. The HUD grant will subsidize the amount of interest above 3 per cent on a bond issue of approximately \$2.5 million. Auburn University President Harry M. Philpott said the bond issue will be prepared to be let at the earliest possible date.

The Montgomery architectural firm of Pearson, Tittle & Narrows, which developed the original Union plans, is designing the addition. The expansion will include a three-story extension to the present building, projecting to the west of the Union on the site of the old Alumni Gymnasium which was razed two years ago.

The additional space will provide more student offices, conference and meeting rooms, and offices of the *Auburn Plainsman*. Renovations to be made on the present building will include an expansion of the cafeteria.

Rainer, chairman of the conference and head of the Department of Civil Engineering, is to provide a forum for the exchange of ideas among industry, city, county, state and federal governments, academic communities, and other interested parties, concerning the economics of environmental quality.

HERBIE — A film which is as pertinent to ecologists as to agriculturists is now available to groups interested in man's control over his environment. Herbie, the chipmunk—whose home is disrupted at least eight times during every cropping season—points up, in lay terms, environmental problems caused by the frequent and heavy traffic across the nation's farms. Entitled "The Bottom of the Wheel" the film demonstrates how heavy farm equipment can cause soil compaction which reduces the crop moisture reservoir, resulting in a reduction in yields and in turn raising the cost of fibers and food. The 23-minute color film was written and directed by Dr. Albert C. Trowse, Jr., a USDA soil scientist. Cinematography is by Austin Mitchell, and narration by John E. Matthews. It was produced in cooperation with the USDA National Tillage Machinery Laboratory and the Auburn University Agricultural Engineering Department. "The Bottom of the Wheel" may be borrowed at no charge by writing the National Tillage Laboratory, P. O. Box 792, Auburn, Ala., or by calling 205-887-8596.

GRANT — An extension grant of \$58,578 from the Small Business Administration (SBA) in Washington, D. C., will help Auburn's School of Business provide management help to small

ARROWHEADS ON DISPLAY—Dale Rush of Lineville has a display of Creek Indian artifacts in the Auburn Union Lobby, including some 200

projectile points found at a single site in Clay County. Rush is a student in the School of Pharmacy and does his specimen collecting as a hobby.

business firms in the State. The grant will provide a small business management specialist and two graduate assistants who will provide management consulting services to small business. The project will concentrate on firms in economically depressed sections of the state and will function in cooperation with the SBA district office in Birmingham.

ADULT EDUCATION — Sixty adult basic education teachers, aides, and supervisors from across Alabama attended a two-week summer institute at Auburn during August. The institute concentrated on theory, methods, techniques, and materials for teaching disadvantaged adults. The program is a part of the Alabama adult basic education program seeking to meet the needs of some 800,000 educationally-disadvantaged Alabama adults. The institute was co-sponsored by the State Department of Education and Auburn's Department of Vocational and Adult Education.

FELLOW — Dr. Fred Adams, Auburn professor of agronomy and soils, has been named a Fellow of the American Society of Agronomy. Dr. Adams was cited for his outstanding teaching and research in Auburn's School of Agriculture and Agricultural Experiment Station. His research has dealt largely with the chemistry of acid soils and the reasons

for infertility of acid soils—a major limiting factor in crop production in the Southeast. Dr. Adams joined the Auburn faculty in 1955 following a three-year assignment in Beirut, Lebanon, where he was professor of University. He is credited with helping develop a curriculum of the new School of Agriculture there, as well as initiating field research, equipping research laboratories, teaching undergraduate courses, and assisting with special training for non-university students.

COOPERATION — The School of Education has received a \$32,000 grant from Tuskegee Institute for the training of professional aides for the New Careers in Rehabilitation Program. The students trained will be for Georgia and will work primarily in Atlanta in the black communities. They will be trained to perform many of the duties now being done by professionals in such areas as mental health, social work, vocational training, and rehabilitation for the disadvantaged. This year's program, the first of a five-year plan, will be spread out among Auburn, Tuskegee, and Atlanta and will last for ten weeks.

DIPLOMATE — Dr. Donald F. Walker of the Auburn School of Veterinary Medicine has been named Charter Diplomate of the newly-organized American College of Theriogenologists. Theri-

ogenologists are concerned with all phases of reproduction in animals other than man. Dr. Walker, a professor of large animal surgery and medicine at Auburn since 1958, is one of 28 veterinarians who were selected as Charter Diplomates of the College from among more than 70 highly-qualified theriogenologists in the U. S. and Canada.

Danforth Aid For Alumnae

Women who hold bachelor's degrees from accredited colleges or universities and whose academic careers have been interrupted for at least three continuous years are eligible to compete for one of the thirty-five annual Danforth Graduate Fellowships offered by the Danforth Foundation. The purpose of the fellowships is to develop college and secondary school teachers.

Candidates for assistance may or may not have begun graduate work. Teaching experience is not necessary. A full- or part-time program leading to a master's or doctor's degree at an accredited college or university may be proposed. There is no age limitation.

Appointment is for one year and is renewable as long as the recipient remains in good academic standing and follows her

CONTINUED ON PAGE 5

Faculty Chosen

CONTINUED FROM PAGE 2

The faculty chosen are: Dr. Eugene Current-Garcia of English; Dr. H. S. Swingle of Fisheries and Allied Aquacultures; Dr. Charles M. Darling of Pharmacy; Dr. Leon O. Wilken, Jr., of Pharmacy; Dr. D. L. Huffman of Animal and Dairy Sciences; Dr. Hal Pickle of Management; Dr. Leonard A. Robinson, head of Accounting and Finance; Dr. H. Ellsworth Steele, Assistant Dean of the School of Business.

Dr. R. Stafford Clark of Educational Administration; Dr. Thad Bates Green of Management; Dr. Reginald I. Vachon of Mechanical Engineering; Dr. W. Frank Swinson of Mechanical Engineering; Dr. Joseph W. Maxwell, former head of Family & Child Development; Dr. Elizabeth Y. Davis, Research Coordinator of School of Home Economics; Mrs. Mildred S. Van de Mark, head of Nutrition and Foods; Dr. Norman A. Brittin of English; Dr. Donald P. Foshee of Psychology; and Dr. Harold H. Punke of Foundations of Education.

FELLOW—Dr. Charles L. Rogers '59, associate professor of electrical engineering, has been awarded a Resident Fellowship by the American Society for Engineering Education and Ford Foundation to work one year in industry. Dr. Rogers, whose specialty is bio-medical engineering, will work at Western Electric in Winston-Salem, N. C., for a year, which began September 1.

Editor's Column—

AUM—An Opportunity

by Kaye Lovvorn '64

If you are heading down Interstate 85 to Montgomery, look to your right just outside the city, and as you whiz by you will glimpse Auburn University at Montgomery, framed by trees, cotton, and sky.

AUM is a modern university, growing up in the midst of cotton and 500 acres of a one-time plantation. It is in the enviable—and unusual—position of having the prestige of Auburn University behind it and the freedom of a pioneering school before it.

Comparing AUM to bigger universities is inevitable, and in many ways Auburn's offspring appears superior, for it projects qualities that many a bigger university has lost or (temporarily, we hope) misplaced. The first of those qualities is a unity of purpose, a striving to succeed that overcomes whatever normal and petty jealousies arise between divisions and schools within the university—a unity that Auburn and many of its contemporaries seem to have lost in their bigness and anonymity.

Although it has the traditions of Auburn behind it, AUM lacks the inertia that often goes with tradition, and necessity, ever the mother of invention, has meant that AUM is doing even routine things such as class scheduling differently, and often finding that "it works, we like it, and we're going to keep it."

Creating something new is always a challenge, and I cannot imagine a greater or more worthwhile challenge than creating an institution of higher learning. The creative act comes not from the legislature which wrote the law but from the people who are at AUM now, encouraging, and shaping it as it grows. They share an exhilarating purpose and respond with an effort that many an older university cannot claim.

That exhilaration and sense of purpose extends to the students and is evident in the camaraderie of students and faculty and—even more unusual—between the students and administration, obviously aided by the fact that AUM faculty and administrators are by and large the same people. They are all grouped together in the same building which lacks a lot aesthetically but where the students are free enough to wander in to an office to ask a question, to borrow the phone, or just to rap. The situation may not be businesslike, but it is delightfully different from most college campuses.

A third area in which AUM has a lead is in communication between town and gown. In a day in which education, particularly higher education, seems to be blessed with enemies, AUM is using all its efforts to build friends for itself and for higher education. AUM is a community college, built to serve the people of the town in which it is located. It offered education to the people of the town, not just their children, by starting out with night courses, both credit and noncredit, at times when people could take advantage of them, to earn a degree or just to learn for self fulfillment.

But no good relationship is one sided. There is an old joke about a college boy's writing home to his parents, "Don't come, send money." The relationship of many colleges with their potential supporters has been similar. The most desirable, and sometimes it seems only, support needed has been monetary. And money certainly is a pressing need of every university these days, but AUM is asking for another kind of support as well from the people of Montgomery. The kind of support that can be given by people who can't give money: time and effort—to man the library's circulation desk, to shelve books, to do clerical chores, and numerous other

LIKE MOTHER, LIKE DAUGHTER—Auburn's chapter of Phi Kappa Phi, national scholastic honorary, initiated 34 new members on August 12. Mrs. Dottie N. Sherling '41 congratulates her daughter Dottie Sherling Shinnick, one of the newest initiates. Mrs. Sherling is president of the local chapter. Scholarly works by 17 members of the Auburn chapter have been sent to the University of Maine where the honorary was founded 75 years ago.

jobs that need to be done, but which AUM does not have the money to hire staff to do. By asking for help in other forms than money, AUM gives more people a chance to help, to become involved, to contribute to the growth and shaping of a university.

The described superiorities of AUM are those belonging to a growing school crammed in the old place on Bell Street. By the time this *Alumnews* is in your hands, AUM will have moved into its more spacious and lovely quarters on the new campus. Students and faculty won't be physically as close as they were on Bell Street. The Administration will be more set apart. The new buildings, fine furniture, and closed doors can inhibit the students' freedom to drop in with a question, or just for a chat. The move can be detrimental for the good things of AUM.

AUM is a growing school. The bigger it becomes the more likely it will become susceptible to the failures of the big universities: loss of common purpose, anonymity of students, the lack of communication between students and faculty, the removal of administration from the purpose (teaching and learning) of a college.

As it becomes bigger and wealthier AUM may no longer need the help of the lady who volunteers her afternoons to work in the library, it may have more buildings, less need for classes at night and may devote itself to being a day university—and in the process it may cut itself off from many friends and from its purpose.

It may, but we hope that it won't.

For higher education needs the community liberal arts colleges like AUM which are responsive to the needs of the communities in which they are located, just as it needs the professional universities like Auburn which serves the state and the region.

President: James M. Brown '46; **Executive Secretary:** Joseph B. Sarver, Jr., '37; **Associate Secretary:** George (Buck) Bradberry; **Executive Committee:** Ralph Beauchamp '47, Cecil Yarbrough '42, Morris Savage '58, Dr. C. Lloyd Nix '59, William S. Flanagan '47, John S. Langford, Jr., '53, and J. Gilmer Blackburn '50, ex-officio.

THE AUBURN ALUMNEWS is published ten times a year at four week intervals, September-July, by the Auburn Alumni Association, Auburn University, Auburn, Ala. (36830). Kaye Lovvorn '64 is editor; Ruth Whelchel '70, assistant editor. The Auburn Alumnews was entered as second class matter February 4, 1946, at the Post Office, Auburn, Ala., under Act of Aug. 24, 1912.

Here and There—

On A Gentle Plain

by Jerry Roden, Jr., '46

Out in the country near Americus, Georgia, Koinonia Farm stands quietly on fourteen hundred acres of gently rolling plain that nourishes peanuts, corn, vegetables, grapes, pecans, pasture, and pines.

Riding down the highway that runs through the center of it, the casual observer will note on the surface too few differences from a thousand other Georgia farms to attract special attention. Of course, he may wonder for a moment at the larger-than-usual cluster of buildings where the big house would normally stand, or at the fleeting glimpse of a little village tucked away beneath a pine grove. But neither of these is spectacular, just a bit unusual.

Yet, there is that at Koinonia which makes it impossible for those who know anything about it to look upon it as just another farm. The name itself is a Greek word meaning *community*, and the inhabitants of Koinonia think and speak of it as a Christian community, as a place where people live, work, share, study, and pray together in the communion of Christian brotherhood.

Koinonia is a very tolerant community. It welcomes visitors of all kinds and also transient residents seeking a haven from our dissension-torn society or reconciliation of their own inner conflicts. Members of the community ask no pledges of visitors or transient residents. They rely on good example to establish their sincerity and the validity of their religious convictions. They do hold retreats and study courses on the Bible for those who wish to participate. But there are no evangelical sermons, and there is no coercion.

Koinonia is also a self-reliant community. It receives no government or foundation grants—as a matter of principle it seeks none. It does receive some gifts from friendly individuals, but relies chiefly on its production and sales.

Millard Fuller '57, an Auburn alumnus and a former millionaire who gave away his money and went to Koinonia at the end of a quest for inner peace, is the present director of Koinonia. And under his leadership, Koinonia is now a thriving community.

One is not surprised then that Koinonia has many friends who see it as a source of inspiration and hope. Neither is one surprised that many people do not agree totally with the Koinonia interpretation of the Christian message: It is a bit too demanding for most of us. And, of course, few of us are ever in precise accord upon religious matters.

But it is surprising that Koinonia has so many bitter enemies among generally good people—enemies who cannot tolerate the thought of its existence. This summer Harper and Row published Dallas Lee's *The Cotton Patch Evidence*, the story of Koinonia. It is a story about the community, about its founder Clarence Jordan, and about several Auburn alumni who have worked in the community. But above all it is a story about the intolerance of the majority of us, for it records the violence and hatred directed at Koinonia in disturbing detail.

Many will continue to find Koinonia a source of inspiration and a symbol of hope. Others among us will continue to disagree with some of its precepts and practices. But all of us should learn from Koinonia and its history some lessons in tolerance and human understanding—if we have any intention of bringing the American Dream of a truly free society to fruition.

THE AUBURN ALUMNEWS

Auburn at Montgomery Moves Into Second Phase

by Kaye Lovvorn '64

On September 2 and 3, Auburn University at Montgomery (AUM) began the second phase of its young life when the three-year-old school moved to its new campus just off Interstate 85 north of Montgomery. Sitting in the midst of cottonfields and country roads, the new campus consists of two buildings — a classroom building and a library building (which will also house the administration)—and the girders and concrete beginnings of a third, a student center.

When the *Alumnews* visited the new campus two weeks prior to the moving date, the contractors were hard at work in both buildings connecting wires, putting in laboratory equipment, and doing the dozens of other jobs that must be completed before the moving date.

Back at AUM's facilities on Bell Street in downtown Montgomery the students were taking finals and faculty and administration were impatiently waiting for the two weeks to pass and the move to the new campus to get under way.

Proud of Campus

The faculty, staff, and students of AUM are obviously, and with good reason, proud of their new campus. For the past three years they have been crowded into the old facilities of the University of Alabama Extension Center which looks like a huge warehouse now partitioned and divided into offices and classrooms. With the move completed, they will occupy spacious and functional quarters, well-planned to give adequate space and good usage.

Although, because of the move, AUM's current emphasis is on equipment and space, the real AUM is, of course, the students and faculty. When classes begin this fall, AUM will enroll some 1,700 students in its regular program, the Air University program, and the continuing education program. Approximately 1,100 will be regular students going to school during the day and carrying a full load of course work. Another 300 will be en-

rolled in the Air University graduate programs, and an equal number in the non-credit continuing education programs.

The students have formed their own Student Government Association and now have a student newspaper, the *Advocate*, a student insurance program, a student handbook, and beginning this fall, will have their own student rings. Intramural sports provide adequate cause for and expression of a school spirit of their own.

A look at the faculty shows that they, like the institution, are young. The average age is 35. Of the 40 faculty members, 85 per cent hold the doctorate (compared to a 50 per cent national average). Approximately 40 per cent of the administrative and teaching staff of AUM had some prior connection with Auburn, either as alumni or faculty or, sometimes, both. The other faculty members have come to AUM from throughout the United States and many have studied abroad.

Hard to Classify

Classifying AUM is somewhat difficult because it retains a close but separate relationship with its parent university fifty miles up the road. AUM shares the president and Board of Trustees with Auburn and its head administrative officer, Dr. H. Hanly Funderburk '53, is one of the four Auburn vice presidents. But AUM has its own administrative council, advisory board, academic divisions, and faculty.

When it first began functioning, AUM depended on the parent university for many services—such as those of the business office—which it is now conducting for itself. The older AUM gets, the more it grows, the greater its separateness from the parent university is likely to become. Currently its accreditation depends on its association with Auburn, but when AUM gradu-

ates its first substantial class in 1973 it will be examined by an accrediting team from the Southern Association of Colleges and Schools and hopes to receive a separate accreditation.

Undergraduate Program

AUM's undergraduate program consists of three divisions: Arts and Sciences, Business, and Education. The Division of Arts and Sciences, headed by Dr. Don Richardson '61, is the largest, offering seven majors and six pre-professional curricula as well as services courses to other areas of AUM. The majors are biology, English, history, government, mathematics, psychology, and sociology. The professional and pre-professional curricula are pre-dentistry, pre-medicine, pre-pharmacy, pre-law, pre-engineering, and pre-veterinary medicine.

The Division of Business, headed by Dr. William P. Clark, offers courses leading to majors in four fields of specialization: accounting, economics, marketing, and general business. The Division of Business, in connection with the Division of Continuing Education, is studying training needs of various agencies of State Government and implementing training programs under a Title I Project to aid in training people in managerial skills for operation of small businesses.

The Division of Education, headed by Dr. James O. Williams, '60, offers majors in elementary and secondary education. The Division also is the regional headquarters for a Southern States Cooperative Learning Resources Center, the result of a \$253,275 grant from the Bureau of Education for the Handicapped. Five states, Alabama, Florida, Georgia, Louisiana, and Mississippi, are involved in the project.

Graduate Studies

Although there is no division of graduate studies presently at AUM, the school offers several graduate programs including a new program leading to the master's in public administration

HEAD OF AUM—Dr. H. Hanly Funderburk '53, Auburn's vice president for Montgomery, is the chief administrator of AUM. Under his direction the three-year-old school has reached an enrollment of 1700 for this fall in all its areas and expects to enroll more than 4,000 students by 1980.

which began in winter quarter of 1971 and is available only at the Montgomery campus. The Master of Education and the Master of Science in Education are available at AUM in elementary education, guidance and counseling, and educational administration, and administered through the Graduate School at Auburn. Dr. Richardson, head of Arts and Sciences, is currently acting as an assistant dean of the graduate school to administer the public administration program and the graduate programs of business and government of the Air University which have been switched from Auburn to AUM and last year resulted in 212 graduates.

Ahead of Parent

AUM can boast that it is ahead of its parent university in two ways: the providing of continuing education programs, and the teaching of classes at night when working people can work on a degree. The Division of Continuing Education, for which Travis Shipp '63 is acting director, has been in existence since 1968 at AUM, while Auburn began its continuing education program in 1971 and still does not have credit courses offered at times convenient for working people to take them.

In the past year some 650 students attended 21 non-credit courses offered by the AUM Division of Continuing Education in cultural and practical areas, such as basic math, art, photography, religions of the world, real estate, the famous "nuts and bolts" class in which women learn to make minor repairs on appliances, and the "horseless carriage and the modern

woman" in which women learn about their car and its care.

In conjunction with the Title I project of the Business Division, continuing education is developing training programs in advertising, small business management, retail merchandising, purchasing, salesmanship, and inventory control.

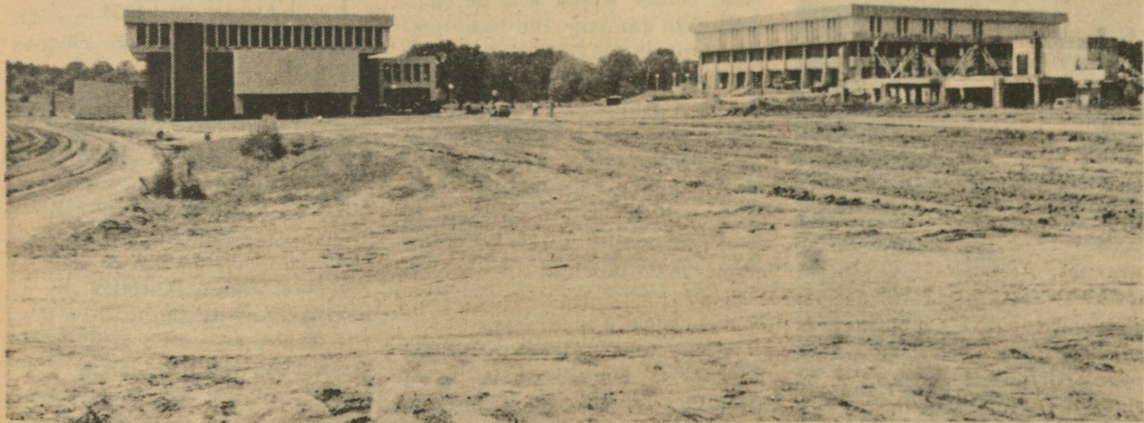

The Heart of AUM

The library has often been referred to as the heart of the university, and AUM has been determined to make its "heart" as strong as possible and has devoted approximately a fourth of its operating budget to building a strong library. Setting for itself a goal of 50,000 volumes by the time it moved to the new campus this fall, the library ordered its first book in August, 1969. Under the direction of R. T. Pastorett, the library reached its goal of the necessary 50,000 volumes for accreditation in July. Another strong point for the AUM library is that it has been designated as partial depository for Federal publications, bringing a wealth of materials to the area for the first time.

Community College

In contrast to its parent university (which AUM personnel delight in referring to as the "Lee County Branch"), AUM is primarily a community college, built as a result of community demands and seeking to fulfill the demands of its immediate community. The 1967 Alabama Legislature created Auburn University at Montgomery in response to local requests and in March, 1968, Dr. H. Hanly Funderburk became vice president

CONTINUED ON PAGE 6

AUM CAMPUS—The new campus for Auburn University at Montgomery consists of two new buildings just being completed and a third due for completion by January. To the left is the Library Building which will house administrative offices on its first floor and have the library on

the second and third. The Classroom building on the right will provide space for AUM's divisions of Education, Arts and Sciences, and Business. The girders in the foreground are the underpinnings of the student center which will be completed in January.

NEW DOCTORS—Auburn awarded the Ph.D. to 24 candidates at the summer graduation exercises, among them these three. Dr. William Vann Parker, dean of the Graduate School, places the hood on Ann Bowling Pearson of Auburn, recognizing

her as a Doctor of Philosophy. Waiting in line are, from left: Jack Moore of Auburn and Robert Daly, Jr., of Athens. Dr. Pearson's degree is in English, Drs. Moore and Daly in botany and micro-biology.

Auburn At Montgomery Moves

CONTINUED FROM PAGE 5

for Montgomery. In September of that year, AUM began offering its first courses on a limited basis at night. A year later classes were offered both night and day with the day classes primarily for the entering freshman class and the night classes for upperclassmen and graduate students. AUM added a sophomore class in 1970 and a junior class in 1971. The senior class added in 1972 will complete classes in order that a complete curricula leading to the bachelor's degree will be established by the end of a four-year period.

Because of the conditions of operating a fast-growing institution in quarters purchased from the University of Alabama Extension Center, AUM had to make some unusual scheduling arrangements. One of those is the meeting time and periods of classes. Classes meet two days a week for 2 hours and 5 minutes each session, either on Monday and Wednesday or Tuesday and Thursday, with the labs all scheduled on Friday. Originally arranged that way because of necessity, the unusual scheduling plan will remain in effect on the new campus, according to Dr. William J. Cook, assistant to Vice President Funderburk, because "we have found it to be more effective and flexible than the traditional 5-day-a-week class schedule."

Dr. Cook, who also directs the English program for AUM, says that both students and faculty like the program which gives them fewer trips to the campus per week and permits the faculty a free day for planning, meetings, and studying each week.

Support from Montgomery

As a community college, AUM has received support from Montgomery in many ways. The Montgomery Area Chamber of Commerce and local government provided much of the capital needed for the initial stages of development of AUM and of ob-

taining the 500-acre campus. That support has remained steady in cooperative education programs with business and professional groups and with funds. Of particular note are a \$15,000 grant from the Kiwanis Club of Montgomery to the library for purchase of books and materials; a \$25,000 gift from the First National Bank of Montgomery to be used at the discretion of university officials; and the contribution of 22 full-tuition scholarships of \$450 each for qualified students from the Montgomery area by local donors.

AUM is in the agreeable posi-

tion of being "Montgomery's university," and has found the support forthcoming not only from wealthy individuals and groups but from people who are volunteering to work in the library and in clerical positions to do inventory, type, file, man the library circulation desk and do other related jobs that need doing but which AUM does not have the money to hire someone to do.

Like most institutions of higher learning, a lot of AUM's problems could be solved with money, particularly those of staff and buildings. With the classroom building and the library, which will house the administration on the bottom floor, and the student center which will be completed in January, the basic segment of the AUM campus will be complete. Its next need will be for a gymnasium which would serve as a place for a physical education classes, for intramural sports and as an assembly hall and general facility for student and community social and cultural activities.

Long Range Plans

Long range plans for AUM call for a planned campus of 12 buildings by 1980 when the projected enrollment will be between 4- and 5,000 students. The classroom building recently completed now houses the Divisions of Arts and Sciences, Business,

Davis' New Book On Free Will

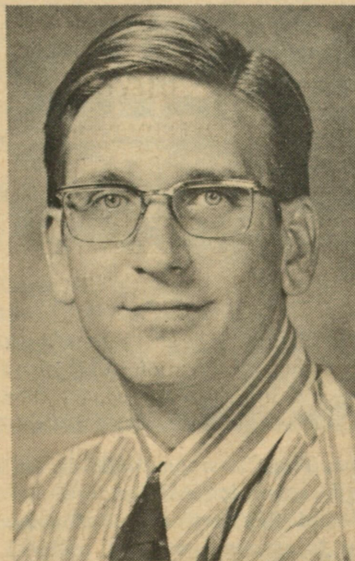

Dr. William H. Davis of the Department of Philosophy has written about the philosophical question of freewill and determinism in his latest book, *The Freewill Question*, published by Martinus Nijhoff, The Hague, Netherlands.

"Mostly this work may be taken as an effort to gather into one place and to express as cogently as possible the arguments for freewill," writes Dr. Davis in the preface of his book.

"Generally, there are two sides of the question," said Dr. Davis. "Either you are on the freewill side or on the determinist side." Dr. Davis, favoring freewill, tries "to answer the arguments of the determinist."

According to Dr. Davis, the basic point he wishes to present is that freewill is a concept "intimately entangled with the human power to reason with the moral and aesthetic sensitivity." Because of this "entanglement," no one of these concepts can be understood independently of the others.

Dr. Davis received his undergraduate education at Abilene Christian College and his Ph.D. at Rice University in 1965. He

DAVIS....Free Will

Professor Authors Book On Waugh

MASKS, MODES, AND MORALS: THE ART OF EVELYN WAUGH is the name of a new book by Dr. William J. Cook, Jr., '65, Assistant to the Vice President, Auburn University at Montgomery. Published by Fairleigh Dickinson University Press, the book provides the most comprehensive study to date of Waugh's novels. Waugh, who died in 1966, is generally held to be one of the most sophisticated British satirists of this century, although the critical consensus is that he is not a sincere artist. Dr. Cook's thesis is that Waugh's novels are consistently characterized by both a high degree of artistry and serious moral concern which makes him indeed a major novelist. Two of Waugh's most popular novels are *Brideshead Revisited* and *The Loved One*.

Dr. Cook received his M.A. from Auburn University in 1965; his Ph.D. in 1968. He taught at Auburn University from 1963 to 1967 as a graduate assistant; from 1967 to 1968 as an instructor. After one year at Jacksonville State University he returned to Auburn University at Montgomery. In addition to his

Letter to Editor—

'Tough-Minded Schooling' Needed

139 Florence Place
Mobile, Ala. 36607
10 August 1971

The Editor:

Many thanks for your comments about the agonizing which went on regarding the Report of the Alabama Education Study Commission, and its release of the NTE results. (Alum-

news, July-August 1971).

Little else was to be expected. "Methods" and emotional values have dominated Education in America for a long time. Thus the idea of putting subject matter knowledge high on a list of desirables is quite upsetting.

What the Commission reported has been noted before. However, it was done by people like Arthur Bestor, Admiral Rickover, Alvin Weinberg, and Russell Kirk. They are not in good standing with educationists.

Nevertheless, the general public, plus business and industry, must back up people like you so that we may insist on tough-minded schooling; and on competence in subject matter in particular.

I trust that you will continue to repeat the excellent theme in your "Round the Mulberry Bush."

Very gratefully yours,
J. A. Douglas '17

A Trip To The Library

August 26, 1971
Newport News, Va.

Dear Mr. Roden,

For many years I have enjoyed the *Alumnews*—and your column. Thank you for sharing your thoughts.

Today you sent me to my library—by 'phone. Yes, they have Madison Jones' *A Cry of Absence*, and will notify me as soon as it is available.

I look forward to reading it. Thank you for introducing it to me.

Auburn is my girlhood home town. I have three brothers there. Maybe I can on my next spring's visit, meet you and Dr. Jones and thank you both.

Sincerely yours,
Marion Knapp Ashby '08

Auburn Alumnalities

'17 **John M. Ward** of Montgomery is the new vice chairman of the Alabama Historical Commission.

'22 The late **Dr. Ralph B. Draughon**, long-time Auburn president, has been honored by the Alabama Historical Association, receiving posthumously the Distinguished Service Award for his "outstanding contributions" in historic preservation of old homes and buildings. The Distinguished Service Award, the Commission's highest, was announced at the fourth annual state-wide preservation conference on July 12 in Montgomery.

'26 **Claude McLain**, Birmingham educator and assistant superintendent for teacher personnel for Birmingham city schools, received an honorary Doctor of Laws from Samford University in Birmingham in June. He was honored for "numerous outstanding contributions as an educator, religious and civic leader during the past thirty years in the Birmingham area."

'28 **M. Kenneth Wilkins** retired from AT&T on April 1 and now lives in Pensacola, Fla. . . .

New Addresses: **Leon L. Ingram**, Falls Church, Va.; **W. Garth Gilchrist, Jr.**, Casper, Wyo.

'29 **James L. Hartselle** retired Nov. 1, 1970, from the Tennessee Valley Authority in Chattanooga, where he spent 35 years of service, first on construction and in later years in the office, working with plant financial records. He sent news of other of his classmates who have worked with TVA and are now retired and living in Chattanooga: **Warren B. Jackson**, retired in 1967; **Massey B. Clayton**, retired in 1969; **Sam L. Neville, Jr.**, retired in 1970; **Ralph A. Ellison**, retired in 1970, and **Russell A. Strong, Jr.**, on May 1, 1971.

NEW ADDRESSES: **John W. Williams**, Falls Church, Va.; **Mr. and Mrs. Harry Wise (Laura Dearman '30)**, York, Ala.; **Marvin F. Fisher**, Waverly Hall, Ga.

'30 **George R. Tate** now lives in Longview, Tex., where he is associated with Louis Morgan Drugs.

Raymond C. Roberts now lives in Sheffield.

'31 **J. C. Fink, Jr.**, retired on April 16 after 30 years with Scripto, Inc., in the engineering department. He says he is now "enjoying leisurely living on Jackson Lake south of Atlanta." His new address is Monticello, Ga.

'32 **Claude B. Thompson** of

Columbia, S.C., has been appointed director of the Office of Civil Defense for region three. He will administer civil defense programs in Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, Tennessee, and the Canal Zone. The headquarters of the region is in Thomasville, Ga. Mr. Thompson's career has included military service and educational and consultant work. He was an assistant professor of economics at Clemson University from 1962 to 1966. For the next two years he directed Clemson's branch at Greenville, S.C., and then served for a year as director of the Education Division of the State Central Office for Technical Education.

NEW ADDRESSES: **Merrie Rhoads Roberts** (Mrs. Raymond C.), Sheffield, Ala.; **Arthur H. Feagin**, Birmingham; **Grover Dunn**, Marietta, Ga.

'33 **William H. Cone** will represent the Consulting Engineers Council of Alabama as the state director on the council's national board in the coming year.

'34 **James A. Benford** now lives in Fairhope, Ala.

Alumni In The News—

Stevenson Neely

R. E. Stevenson '51 has been elected a director of the American Association of Agricultural College Editors for the Southern Region. He and six other board members will direct the Association's activities for 13 Southern states from Texas to Virginia. Mr. Stevenson is associate editor of the Department of Publications of Auburn's Agricultural Experiment Station and has been an active member of the Association for more than 10 years. The past two years he served as editor of the *ACE Quarterly*, the Association's professional journal. Mr. Stevenson joined the Agricultural Experiment Station in 1955. He previously had been associate editor of the *Farm and Ranch* magazine and had served in the Navy from 1951-55.

Dr. Thomas A. Neely '53 has been appointed general manager of Chemtronics, a new division of Airtronics, Inc., in Asheville, N. C. Chemtronics specializes in the research, development and manufacture of specialty and intermediate chemicals, controllable solid propellant rocket motors, gas generators, and flare and signal devices and systems. Previously Dr. Neely was manager of product development and process engineering with the Thiokol Chemical Corp. in Woodbine, Ga. He and his wife have three children.

Danforth Aid For Alumnae

CONTINUED FROM PAGE 3

original academic plan. Amount of each individual stipend will depend on individual need but will not replace income which might be earned if the recipient were employed. The maximum award for 1972-73 will be \$3,000 (\$4,000 if the recipient is the head of a family) plus tuition and academic fees.

Additional information will be provided on request by the Danforth Foundation. All applications must be received by the Foundation on or before January 7, 1972. Address correspondence for information and application forms to Director, Graduate Fellowships for Women, Danforth Foundation, 222 South Central Avenue, St. Louis, Missouri 63105.

Auburn University

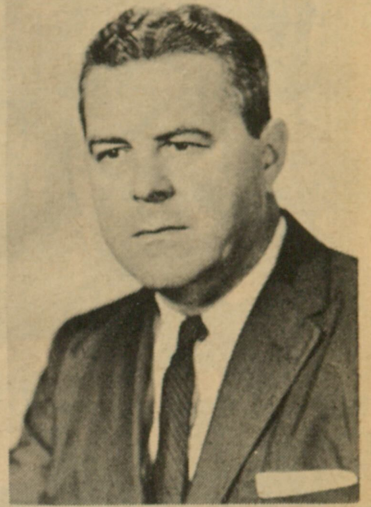

CONTINUED FROM PAGE 6

and Education with the 100,000 square feet of available space divided on a 50-25-25 percent basis among the divisions.

"Eventually," Dr. Funderburk explains, "Education and Business will move out when other proposed buildings are constructed. Since they require no special labs, it will be easy for them to shift. When they shift hinges on the availability of funds and the growth of AUM."

'35 **Walter R. Brassell** of Gunterville operates the Claysville Boat Harbor at Gunterville and works with the State Planning Board.

'36 **James E. Vance**, senior vice president of First National Bank of Birmingham, heads the new bank department responsible for all government-related business. He will also have duties in the bank's commercial department. Mr. Vance joined the bank in 1936. In 1951 he was named an assistant vice president, then vice president in 1953. He headed the bank's division of new business and until his appointment was head of advertising and public relations.

Texaco Promotes Walter Gilbert

On August 1, Walter B. Gilbert '37 became general manager for international sales—Europe in Texaco's New York Office. In the new assignment Mr. Gilbert will coordinate over-all operations of Texaco's European sales subsidiaries.

Mr. Gilbert joined Texaco when he graduated from Auburn. He held sales positions in the south prior to joining a Texaco subsidiary in Havana, Cuba, as assistant manager in 1956. He became manager a year later. In 1960 he returned to the U. S. as division sales manager in Denver and in 1961 regional manager at Houston. In 1962 he was named assistant to the vice president in charge of sales—United States, at New York and in 1963 became general sales manager for the Eastern U. S.

He moved to Brussels in 1965 as general manager for Euro-was appointed president of Texaco Europe Ltd. Later that year he returned to New York to become general sales manager—Latin America/West Africa. In January, 1971, he became deputy general manager, sales—Latin America.

pointed Rep. Nichols to the committee. This year he became chairman.

Col. John W. Grady, Deputy Commander of the Army Forces Southern Command, retired from the Army on July 7 at Ft. Amador in the Canal Zone. A review honored the colonel who received the 2nd Oak Leaf Cluster to the Legion of Merit, citing him for "outstanding meritorious service" during the three years he served as deputy commander. The citation stated that "throughout his tenure as Deputy Commander, Col. Grady displayed unexcelled professional leadership and keen foresight in achieving the highest possible standards within all areas of his responsibility." Upon returning to the States, Col. and Mrs. Grady will live in Auburn.

'40 **Newbern W. Bush** now lives in Woodbridge, Va.

Alumni In The News

Hagler Dyas

T. Ben Hagler '39, chairman of the Plant Science Division of the Extension Service at Auburn, is a new trustee of Kiwanis International. He has served in many state and local Kiwanis offices and as a member and chairman of the Kiwanis International Committee on Agriculture and Conservation. Currently he is a member of the Kiwanis Board's committees on program development, public relations, and sponsored youth organizations. He is active in local civic work and in professional organizations. He and his wife have three married children.

Brig. Gen. John R. Dyas '39 has retired from the Air Force after 31 years. He retired as chief of staff for the Air Training Command headquartered at Randolph AFB, Tex., and received the Distinguished Service Medal. He and his wife Henrietta will make their home in Montgomery.

SECOND AND THIRD DEGREES—Cynthia and Ray Crosby are the second and third persons to receive the Ph.D. in psychology at Auburn. The couple, who were married in 1967, were awarded the degrees Friday, Aug. 27, in commencement exercises. Both dissertations involved studies with the albino rat.

ALUMNALITIES—Continued

'41 Col. Thomas Casady of Birmingham is new commander of the southeast region of the Civil Air Patrol, an auxiliary of the U.S. Air Force. He had been deputy commander of the Alabama Wing of CAP.

'42 Russell Thomas Smith works with Rohm-Haas Corp. in Fayetteville, N.C.

'43 Walter L. Berry, Jr., now lives in St. Simons Island, Ga.

'45 Col. James M. Shuler, staff veterinarian of the U.S. Thirteenth Air Force on Clark AFB, Philippines, has been awarded the Meritorious Service Medal. He earned the recognition for his significant contributions to the effectiveness and success of defense, agricultural, and economic programs of Thailand and the Philippines. His professional competence resulted in the more rapid development of the shell fish industry in the Philippines, the expansion of cattle stock in Thailand and the establishment of military working dog programs in both countries. Col. Shuler's wife, Betty, whom he recently married in Anchorage, Alaska, is a nurse in the Air Force. They were both assigned to Wiesbaden, Germany, in August.

'46 William W. Penn is new vice president and general manager of H. Y. Carson Co., manufacturer of ductile iron repair clamps for gas and water mains. The company is located

in Tarrant, a suburb of Birmingham. He had been on the faculty of Jefferson State Junior College before joining Carson.

'47 Louis H. Jordan is back in the States from Istanbul, Turkey, living in Yonkers, N.Y. He is professor of accounting in the Graduate School of Business at Columbia University.

George M. Hughes has recently retired from the Army. He and his wife, **Mary Moore Lewis** '48, have returned to Birmingham to live.

Walter L. Roark, Jr., has been promoted to director of engineering and services for Greenwood Mills in Greenwood, S.C. He joined Greenwood Mills in 1968, coming from the Aldrich Machine Works where he was a vice president, secretary, and general manager. He and his wife Joyce have three sons, Walter, III, John, and Jeff, and a daughter, Nan.

Dr. Thomas W. Gandy joined Valdosta State College in Valdosta, Ga., on July 1 as director of public services and professor of education. His work will be in the areas of continuing and adult education, community services, special institutes, and federal projects. Dr. Gandy was academic dean and former vice president at Berry College near Rome, Ga., when he took the new job. He had been director of development at Georgia College at Milledgeville and spent 11 years in the education department at Auburn. He and his wife, Theodora, have one daughter, Suzanne, 14.

Auburn Well Represented—

Alumni Aid Apollo 15 Moonshot

NASA has reported that 25 Auburn alumni working at Huntsville and Cape Canaveral, Fla., were among the thousands of U. S. space team members making the Apollo 15 moonshot possible. Six of the alumni are at Cape Canaveral and 19 at Huntsville.

The alumni at Cape Canaveral are a part of the team which made the final checks of the systems aboard the spacecraft and the Saturn launch vehicle that put the three astronauts in orbit.

The alumni and their titles: Fred M. Harper '55, an aerospace engineer; William I. Moore, Jr., '57, engineer; Ralph L.

Schiling '57, chief of launch and base support; Howell H. Row '61, engineering manager; Eldon O. Raley '61 chief of the vehicle measuring section; and David A. Deppensmith '69, aerospace technologist.

The alumni who work for NASA at the Marshall Space Flight Center in Huntsville are among those who developed the lunar rover vehicle for Apollo 15. The small electric car transported astronauts Scott and Irwin to and from their landing site on the "moon walks."

The Huntsville alumni are: Arthur T. Ousley '40, a mechanical engineer; Robert M. Avery '42,

'48 Col. Ellis E. Stanley is stationed at Phu Cat AFB, Vietnam, as vice wing commander in charge of operations.

'49 Nicholas H. Holmes of Mobile is one of two architects heading the restoration of the King House on the University of Montevallo campus, one of central Alabama's earliest structural landmarks. Mr. Holmes is a recognized authority in restoring historical buildings, having to his credit the famed Kling House and Carlen House in the Mobile area. He represents the American Institute of Architects on the Alabama History Commission and is a member of the AIA steering committee on historic resources.

William K. Strange, of Bill Strange Dodge in Birmingham, has been elected president of the Greater Birmingham Automobile Dealers Association.

'50 Col. Billy J. Mendheim is attending the Army War College at Carlisle Barracks, Pa.

Thomas J. Rivas, Jr., received a Master of Education from the College of William and Mary in June and now lives in San Francisco.

William B. Reed has been elected a senior president of Southern Services of Birmingham. He was elected a vice president and chief engineer in 1969, having been associated for 19 years in various management functions with General Electric. A registered professional engineer in the states of Alabama and Mississippi, Mr. Reed is immediate past president of the Engineering Society of Birmingham.

R. K. Price became county extension director in Okeechobee County, Fla., on April 1. Okeechobee is the number one dairy-producing county in Florida.

Lt. Col. Curtis N. Smith is on duty at Tan Son Nhut AB, Vietnam. He is assistant director of logistics plans for the Seventh Air Force. He is married to **Gloria Lucky** '53.

Stuart X. Stephenson, Jr., staff public relations manager for South Central Bell, is new president of the Kiwanis Club of Shades Valley for 1971-72.

'51 Charles M. Yarbrough, controller of WestPoint-Pepperell's industrial fabrics division since 1966, has been

chief of the electrical equipment and tool development section of NASA; Bernard S. Blake '48, chief of the flight test engineering branch of the Space Sciences Laboratory; Carl M. Wood '49, aerospace engineer.

C. R. Christian, chemical engineer; Jack T. Wood '49, chief of the engineering and planning office; Richard G. Smith '51, manager of the Saturn program; Hugh M. Campbell, Jr., '57, mechanical engineer; Paul E. Black '57, aerospace engineer.

Homer W. Strickland '57, an assistant to the Saturn manager; Max A. Kelly '59, contract specialist; Francis C. Rawls '59, aerospace engineer; James R. Ledbetter '59, a flight simulation technologist; Victor K. Henson '61, aerospace engineer.

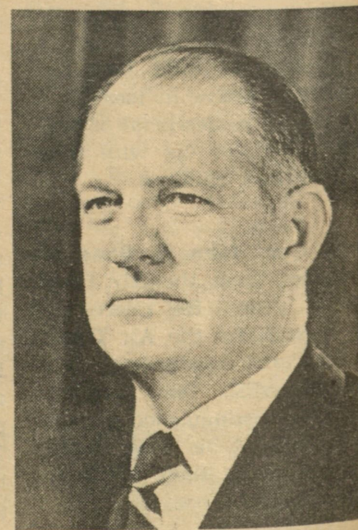

Clark M. Owen '61, project engineer; Thomas R. Duke, '61, an aerospace engineer; Billy H. Adams '62, flight systems engineer; Robert P. Baker, flight systems engineer; and Henry P. Stinson '65, mechanical engineer.

Stewart Elected To Top Office

Directors of the Armstrong Rubber Co. have elected Joseph L. Stewart '37 chairman of the board. As chairman of the Board of Directors, Mr. Stewart is the company's chief executive officer. He joined Armstrong in November, 1965, as senior vice president.

After graduating from Auburn as an honor graduate and a three-letter athlete, Mr. Stewart was commissioned into the Marine Corps and during the succeeding 28 years won seven personal decorations and held such varied assignments as: commanding general of the Marine Corps Base at Twentynine Palms, Calif.; director of the Marine Corps Command and Staff College; and deputy director for plans of the Supreme Allied Command, Atlantic (NATO).

Upon retiring from the Marine Corps in 1965 he joined the Armstrong Co. as senior vice president and chief operating officer. Since that time he has assumed top responsibility for the future of the major tire manufacturing company.

Engineers Get Study Room

by Trudy Cargile

A study room for engineering students at Auburn University has been furnished with donations from friends of the late Col. James Allum Greene '26 an Auburn alumnus and, before his death, long time employee of the American Telephone and Telegraph Co.

The study room, designated the Col. James A. Greene Room, is in Shop Building II and serves students from the entire school. It is also used as a meeting place for departmental faculty and engineering honorary groups.

Eta Kappa Nu, electrical engineering honorary, undertook the initial renovation of the room which was formerly used by the Athletic Department. Cash gifts amounting to \$2,125 donated by Col. Greene's friends were used to provide furnishings.

According to Dr. Chester C. Carroll, head of the Department of Electrical Engineering, the faculty will provide some books for the shelves which are to be built later.

Wise Ends Long Career of Service

Dr. Owen F. Wise retired June 30 from the State Department of Education after 44 years. He was honored by some 600 friends and co-workers at a recent reception in Montgomery for his long career in service to the handicapped in Alabama. Starting out as a rehabilitation counselor, he has risen through the ranks to become director of the Division of Rehabilitation and Crippled Children, the position he held at his retirement.

Mr. Wise is well known throughout Alabama and during the past years has received many honors. Auburn University presented him with the Algernon Sydney Sullivan Award in 1956 for service to humanity and in 1970 gave him an honorary doctorate. Among his other honors are the H. B. Cummings Award in 1964 for leadership in helping the disabled; the Bronze Award in 1965 for his work with the Alabama Society for Crippled Children and Adults; and the W. F. Faulkes Award in 1966 from the National Rehabilitation Association for his assistance to the handicapped.

The Alabama Tuberculosis Association has presented him with the Heacock Award for his crusade against that disease and he received the Alabama Rehabilitation Association's professional award in 1969. In May he received the Distinguished Service Award from the Alumni and Workers Association for the Blind.

The office and clinic building at the Central Alabama Rehabilitation Center in Montgomery and a recreational therapy area at Elks Memorial Center in Montgomery are being named for him.

Dr. Wise is the father of two children: Laurie Wise '62, a teacher of exceptional children in the Atlanta School System; and Mrs. Ruth Mary Kirkland '56 who with her Air Force husband and two children lives in Hawaii.

Col. Greene graduated in electrical engineering at Auburn in 1926. Following graduation, he began a 43-year career with the Bell system by joining the Long Lines Division of AT&T in Atlanta.

For the next 21 years, he served AT&T units in Georgia, North Carolina and Florida. From 1942 to 1945 he interrupted his career to serve in the Air Force Signal Corps, where he achieved the rank of Colonel.

In 1947, he moved to New York as building manager at 195 Broadway, AT&T's corporate headquarters. He was named vice president of the 195 Broadway Corporation (the house-keeping organization of AT&T).

Col. Greene, a native of Opelika, retired in 1959 and died in 1970.

Recent visitors to the room were his widow, Mrs. Priscilla Comeau Greene of Ft. Lauderdale, Fla., and Chalmers B. Greene, a brother, and Mrs. Greene of Dadeville.

SISTERS TEACH FOR 98 YEARS

(Condensed from The Talladega-Sylacauga Daily Home)

Sisters Miss Conola Shaddix and Miss Addie Shaddix have set a teaching record not likely to be broken in public education in Talladega County. The two teachers retired in June after a combination of 98 years in the classroom. Individually the Misses Shaddix also hold the longest record of teaching in the county system with 49 years each.

Teaching was a natural profession for the two children who taught the farmhands on their father's farm to read and who had six teachers in their immediate family. Two years after they had graduated from Lincoln High School, they held state certificates to teach.

The sisters followed the traditional pattern of many North Alabama teachers of the day, teaching in the winter months and attending college in the summer. By this method Miss Addie graduated from Auburn in 1940, to be followed a year later in 1941 by her sister.

The two teachers have seen many changes in that almost 50 years of teaching. They remember that early teaching salaries as being equivalent to one month of their retirement pay. They remember the pot-bellied stoves and building their own fires in their rooms on cold mornings. Paper sacks and tin pails were the lunchrooms of the day. To get to school, the children walked.

During her years with the county system Miss Addie taught at Dry Valley School, the present site of the Alabama International Motor Speedway;

MEMORIAL STUDY ROOM—Dr. Chester C. Carroll, head of Electrical Engineering, second from right, shows members of the family of the late James Allums Greene the study room furnished with gifts from friends of Greene. At left are Greene's brother and his wife, Mr. and Mrs.

Chalmers B. Greene of Dadeville, and at right is his widow, Mrs. Priscilla Comeau Greene of Ft. Lauderdale, Fla. The study room, located in Shop Building II, is also used for faculty and honorary society meetings. A portion of the renovation was by Eta Kappa Nu, EE honorary.

ALUMNALITIES—Continued

BORN: A daughter, Suellen Flay, to Mr. and Mrs. **Phillip L. Forrester** (Miriam Black Forrester '64) on Sept. 14, 1970. She joins brother Jess, 3.

'57 Cmdr. **Samuel W. Adams, Jr.**, is now assigned to the Strategic Systems Project Office with the Department of the Navy in Washington, D.C.

Lt. Col. **William B. Fuqua** is assigned to Letterman General Hospital in San Francisco.

Eugene McManus, presently a senior systems engineer with Raytheon in Bedford, Mass., is pursuing a Master of Business Administration at Clark University in Worcester. He holds an M.A. in mathematics from the University of Alabama.

Maj. **Edward R. Cobb** graduated June 11 from the Army Command and General Staff College at Ft. Leavenworth, Kan. He is now assigned in Washington, D.C.

A. Ray Jones is new controller for WestPoint-Pepperell's industrial fabrics division. He had

been manager of accounting in the division since 1966. He and his wife Sara have two children: A. Ray, Jr., 16, and Timothy A., 12.

BORN: A son, Mitchell Bailey, to Mr. and Mrs. **H. Edgar Hall** of Florence on June 16. He joins brothers Mike, 10, and Hank, 7. Edgar is assistant district manager of power marketing for the Tennessee Valley Authority.

Alumni In The News—

Waitzman

Miller

J. W. Waitzman '44, president of Tractor & Equipment Co., Inc., of Birmingham, has been named to a special sub-committee of the U. S. Department of Labor's Construction Safety Advisory Committee. As the representative of the construction equipment distributing industry, he will study proposed federal regulations on roll over protective structures for new and existing earthmoving equipment. He is a past president of the Associated Equipment Distributors, the 1400-member association of the nation's construction equipment industry.

Charles Miller '48 is now domestic sales manager for Drilco and has been transferred to the company Houston plant. Drilco is a downhole drilling tool equipment division of Smith International, Inc. He and his wife Margorie have five children: Margaret Anne, 18; Mary Elizabeth, 16; Patricia Lynn, 14; Gregory Charles, 11; and Karen Louise, 8.

A son, Stephen Forest, to Mr. and Mrs. **William S. Clark** of Huntsville on April 21. William transferred to Huntsville a year ago from Huntington Beach, Calif. He is with McDonnell-Douglas on the Skylab Program.

'58 **Larry H. Warren**, assistant city attorney for Birmingham, received a fellowship to attend the Summer School of Alcohol Studies at Rutgers University this summer. He studied alcohol, corrections, and law enforcement problems. Mr. Warren and his wife Christine have two children.

Maj. **John R. Sitten, Jr.**, has been awarded the Meritorious Service Medal for his "exceptionally meritorious" service as Logistics Planning Officer, Military Plans Division of the Defense Supply Agency Headquarters. Maj. Sitten is now assigned to Vietnam.

'59 **L. Louie Crew, Jr.**, received the Ph.D. in English from the University of Alabama in May, following a year abroad as an academic director for the Experiment in International Living. His dissertation subject was "Dickens' Use of Language for Protest." Dr. Crew is now professor of English at Claflin College in Orangeburg, S.C.

Phillip R. Bonner is now Birmingham district director of the Muscular Dystrophy Associations of America. He previously had worked in public relations in Montgomery and was executive director of the State LP Gas Commission for three years. In his new job, Mr. Bonner will coordinate MDAA activities in 43 counties in north and central Alabama.

Sam L. Ginn now lives in Barrington, Ill. He has been transferred by AT&T from New York to the Chicago plant where he is a design engineer.

Gary D. Ware works for General Electric at the Space Center in Huntsville.

In Memoriam '09 Through '69

John B. Hodges '09 of Hamilton died Sept. 13, 1970. After graduating from Auburn he entered graduate school here and taught freshman Latin. He later taught school in Hamilton and Guin and became Guin's first football coach in 1911. For 55 years prior to his death, he was associated with the Marion County Banking Co. of Guin and Hamilton as cashier, director, and executive vice president. He served on the Marion County Board of Education for more than 30 years. Survivors include three daughters, Mrs. Henry H. Chamberlain of Piper City, Ill., Mrs. C. Hagen Bentley of Chester, Va., and Miss Ann Hodges of Hamilton; and four grandchildren.

McL. Robertson '11 of Dalton, Ga., died on Oct. 15, 1970, according to recent information.

Taylor G. Jones '13 died on May 29 at Samson where he and his wife had lived for the past several years. His survivors include his wife.

Robert E. Cammack '16 of Montgomery died July 16. Dr. Cammack spent a long career—44 years—in education in Alabama, and 42 of those years were in vocational education. He was state director of vocational education when he retired in 1961, a position he had held since 1945. Earlier he had been state supervisor of vocational education from 1921 to 1945. Prior to that he had been a teacher and farm demonstration agent. Mr. Cammack was responsible for organizing the Future Farmers of Alabama as a part of the national organization and was state advisor for 16 years. He was one of four state advisors in the country who worked with the U. S. Office of Education in establishing the National FFA Foundation. Among his many honors was that of being selected "Man of the Year" in Alabama Agriculture" by the *Progressive Farmer* magazine in 1944. He is listed in *Who's Who in America* and *Who's Who in Education*. He is survived by his wife, Mrs. Ruth Stodghill Cammack '35.

Lawrence E. Dickinson '20 of Atmore died April 8, 1971, according to recent information.

Dr. Herbert Barks, Sr., '21 of Chattanooga, Tenn., died July 3. At Auburn he was captain of the basketball team, played third base in baseball and was on the second string football team. He had been headmaster of Baylor School for thirty years when he retired six years ago. He is listed in *Who's Who in Education* and considered a leading educator. Survivors include two sons, Dr. Herbert Barks, Jr., of Chattanooga and Dr. Coleman Barks of Athens, Ga.; a daughter, Mrs. Jimmy Cox of Ft. Knox, Tenn.; three sisters, Mrs. Frank Matzek of Birmingham, Mrs. Harold Glendinning of Miami, Fla., and Mrs. Raymond Ramsey of Selma; and a brother, Earl Barks of Opelika.

James G. Pearce '23, owner and manager of Royal Crown Bottling Co. of Birmingham, died Aug. 7. He was a tackle on the Auburn football team during his college days. Mr. Pearce was past president of the Alabama Bottler's Association and of Associated Industries of Alabama. He was the first recipient of the annual Distinguished Service Award of the Alabama Soft Drink Association in 1968. He was a member of several civic and social clubs in Birmingham. His survivors include his wife; two daughters, Mrs. Robert Boudreaux and Mrs. Betty Swenson, both of Birmingham; and a brother, Clarke Pearce of Meridian, Miss.

William E. Del Homme '23 of Meridian, Miss., died on April 10, 1971. Survivors include his widow.

James C. O'Neal of Shreveport, La., died Nov. 5, 1970. He is survived by his widow.

Hiram M. Lane '24 of Auburn died July 27 in Lee County Hospital. Mr. Lane had lived in Auburn for the past 50 years where he had come as supervisor of experimental work on the Auburn University horticultural farms. He served in that capacity until his retirement in 1965. Surviving are his wife, Mrs. Nola Lane; three sons, Gen. Howard M. Lane of Ramstein AFB, Germany, William F. Lane of Monroeville, S/Sgt. Henry D. Lane of Ft. Walton Beach, Fla.; a brother, John Lane of McIntosh; and a sister, Mrs. Ruffin Odom of Citronelle.

John B. Carrington '25 of Athens, Ala., is deceased, according to information. He is survived by his wife.

Sam M. Chitwood '26 of Atlanta is deceased, according to recent information.

Hugh D. Sexton '30 of Enterprise died Nov. 29, 1970, according to recent information. He is survived by his wife.

A. C. Bryant '32 of Bay Minette died on Jan. 10. His survivors include his wife.

Leland Chalmers McCallum '32 of Evanston, Ill., died July 14 in an Evanston hospital following a long illness. He had worked in Washington, D. C., before going to Evanston. Survivors include his wife, Mrs. Helen McCallum of Evanston; a son, Dr. Robert Leland McCallum of Columbia, Ma.; two daughters, Miss Carolyn McCallum of Evanston, and Mrs. Joe Slyman of Chicago; three grandchildren; and his sister, Miss Carolyn McCallum of Dothan.

William R. Harris '36 died Jan. 25 in Los Angeles, Calif., following surgery. Survivors include his wife, Mrs. Alma M. Harris of Canoga Park, Calif.

Linton W. Smith '37 of Atlanta, Ga., is deceased, according to recent information.

Thomas Herbert Johnson, Jr., '39 died in Huntsville on May 29. Survivors include his widow.

Davis C. Woolley of '39 of Nashville, Tenn., died Jan. 15, according to recent information.

Miss Linda B. Walls '41 of Enterprise died July 15, according to recent information.

John Cleveland Hart '41 of Napier Field died unexpectedly on Feb. 1. He was farmer manager for Wallace Technical Junior College and its predecessor for the past 21 years. Friends said he had been fighting a fire on his farm near Fayette when he was apparently overcome by heat and exhaustion. Death was attributed to a heart attack. Mr. Hart had earlier worked for the Agricultural Stabilization and Conservation Committee and the Veterans Administration before joining the Napier Field school. Under his management the school's farm in some years of proration had helped to keep the school operating. In recent years he had been developing a special strain of Charolais cattle. Survivors include his wife, Mrs. Sarah Smith Hart '43 of Napier Field; a daughter, Miss Sally Hart of Auburn University; two sons, Andy and Tommy of Na-

pier Field; and a sister, Miss Mildred Hart of Andalusia.

James P. Carney, D.V.M., '44 died June 19, 1971. He had practiced veterinary medicine in Meridian, Miss.

Charles Kenneth Etheridge '49 of Huntsville was killed in an auto accident in 1957, according to recent information.

William T. Havron '51 of Birmingham died on July 11. Survivors include his parents, Mr. and Mrs. H. T. Havron of Birmingham.

George D. Broom '54 of Centre died March 31, 1969, according to recent information.

E. Paul Porter '54 of Huntsville died March 2, 1968. Survivors include his wife, Sara Stanford Porter; three sons, Hank, Dirk, and Stan Porter; one daughter, Melissa Porter, all of Huntsville.

George W. Mize '55 of Columbus, Ga., died on June 10. He operated George W. Mize Agency of the Continental Assurance Co. in Columbus. Surviving are his wife, Joan Davidson Mize '55; and four sons, George W., Jr., John Carter, David Q., and John

Madison Mize.

W. Wayne Lott '61 of Hazelhurst, Miss., is deceased, according to recent information. Survivors include his wife.

Lt. Bobby R. Bowen '67 lost his life while flying a military aircraft in Alaska on Aug. 26, 1970. There were no survivors among the seven-man crew of the plane which crashed into Mt. Pavlof, Alaska, approximately 35 miles from its destination of Cold Bay. Lt. Bowen was on maneuvers with the Georgia Air National Guard. Survivors are his wife, Mrs. Jean Ash Bowen '67; his parents, Mr. and Mrs. J. R. Bowen; two brothers, Ronnie and Lex Bowen, and one sister, Susan Bowen.

Eugene Murray Tatum '69 of Decatur was killed in an automobile accident on July 12 when his car ran into a bridge abutment at Lanett on Interstate 85. He was enroute from Auburn where he was a graduate student in entomology to Griffin, Ga. He was engaged to be married on Aug. 21 to Miss Ellen Scarsbrook of Auburn. Survivors include his parents, Mr. and Mrs. James W. Tatum of Decatur, two brothers and a sister.

ALUMNALITIES—Continued

'60 Maj. Wallace A. Hickman returned from a tour of Vietnam for his third assignment at the Army Primary Helicopter Center and School at Ft. Wolters, Tex., before retiring from the Army this month. He spent 22 years on active duty. He would like to hear from all his friends and classmates who may contact him at 201 N.W. 32nd Street, Mineral Wells, Tex. 76067, where he will continue to live after retirement.

Maj. J. Thomas H. Denney graduated from the Army Command and General Staff College at Ft. Leavenworth, Kan., on June 11. His new assignment is with the Vietnam Transient Division. He holds the Army Commendation Medal, 24 awards of the Air Medal, and the Bronze Star Medal.

John C. Boehl of Memphis, Tenn., has been named salesman of the year for JELCO Laboratories, a Johnson & Johnson company which manufactures disposable needles, syringes, and medical products. He and his wife Janice have a daughter.

'61 David Kendall Price was promoted to senior chemist with Georgia-Pacific Co. in April. He lives in Baton Rouge, La.

John Ed Lee, assistant administrator of Huntsville Hospital for six years, became administrator of Andalusia Hospital on Aug. 1.

Capt. Donald M. Wickham has received the Meritorious Service Medal at Bergstrom AFB, Tex. Capt. Wickham, a logistics officer, received the award while assigned to the office of the in-

spector general at Bergstrom.

Bob J. Gilliam is now assistant western regional director with The American College Testing Program (ACT) in Sacramento, Calif. Prior to his new job he was chairman of the Division of Social Sciences at Pepperdine College in Los Angeles, a position he held for a year after leaving the southeastern regional office of ACT in Atlanta. He and his wife have three children and live in Agoura, Calif.

Thomas Neal Elliott received the Ph.D. in psychology from the University of Mississippi on May 30. He holds the B.S. and M.S. from Auburn.

Maj. Williams C. Allison graduated from the Army Command and General Staff College at Ft. Leavenworth, Kan., on June 11. He is now assigned with the department of division operations with the Command and General Staff College at Ft. Leavenworth. Maj. Allison holds the Silver Star, the Meritorious Service Medal, the Army Commendation Medal, the Air Medal, and three awards of the Bronze Star Medal, two for valor. He is married to **Martha Harris**.

Dr. Donald L. Boyd has joined Dr. A. M. Freeman, Jr., in the formation of Orthopedic Associates, Inc., in Albany, Ga., for the practice of orthopedic surgery. Dr. Boyd has been on the Army Medical Corps orthopedic surgical staff at the Army Hospital Specialized Treatment Center at Ft. Gordon, Ga., since 1969 when he completed an orthopedic surgery residency at the Medical College of Georgia.

Elizabeth Pepperman Bush and her husband, Maj. Gaston O.

Bush, now live in Universal City, Tex., after three years in Germany where he was stationed at Weisbaden.

'62 Lcdr. Malcolm B. Reddoch has completed his course work at the University of Minnesota for a master's in public

Eddens

Williams

James R. Eddens '57 has been named general sales manager of WOW Radio in Omaha, Neb. He had been an account executive with the station for six years. Prior to joining WOW, he was a sales representative with Nebraska Consolidated Mills. He, his wife Beverly, their two sons, and one daughter, live in Omaha.

Dr. John D. Williams '63, an associate professor of Veterinary Medicine and Surgery at the University of Georgia, has been selected as one of 28 charter diplomates to the newly-formed American College of Theriogenologists. The new college will promote the advancement of undergraduate education in the specialized field of animal reproduction under the broad title of "theriogenology."

A Foreign Language Becomes Familiar

Mix together in a large house three pretty girls with the will to learn Spanish, simmer four weeks, and you have what is known at Auburn University as the "Spanish House," an experiment in language study.

What started as little more than a suggestion last spring ended with Lucia Miree of Huntsville, Rose Potter of Greenville, and Betty Beach of Calera living together in the Glanton House which in the past has been used in home management studies. The living arrangement allows them to speak Spanish as a second language.

Lucia, a Spanish major with minors in French and philosophy, is thinking of a career with the foreign service or the State Department upon her graduation this summer at Auburn.

Rose, also majoring in Spanish,

hopes to do social work with Cubans and Spanish Americans. With education and sociology as minors, she plans to graduate a year from now.

Betty is majoring in sociology, but is minoring in Spanish and French. Upon her graduation she plans to work in Florida with Spanish-speaking Cubans.

The Glanton House "senoritas" say they have found many advantages to living together and speaking Spanish from day to day. Betty and Lucia point out that they have learned a lot more Spanish and are more fluent in its use. Living together and sharing the responsibilities of cooking and cleaning has

brought them closer together, says Rose. "We're all good friends."

Lucia, one of the original organizers of the "Spanish House" experiment, first gained the backing of the Auburn Spanish society, Sigma Delta Pi. She obtained permission from Dean Norma H. Compton of the School of Home Economics to use the house. The experiment also received the support of Dr. Taylor D. Littleton, Dean of Undergraduate Students, and Miss Katharine Cater, Dean of Women.

Although there are no plans at present to continue the project, University officials have noted the girls' enthusiasm about their experiment and it might be the basis of another program at some time in the future.

WHO'S RIGHT?—Lucia Miree of Huntsville checks the correct translation of the Spanish word "repisa" while Rose Potter of Greenville, (left) and Betty Beach of Calera look on. The three girls lived together in what was known as the "Spanish House" experiment. The students spoke Spanish as a second language while living in the house as a summer quarter project.

Educator for 35 Years—

Former Trustee M. H. Moses Retires

In his thirty-five years of teaching agriculture at Fyffe, M. H. Moses '35 has seen agriculture on Sand Mountain make almost incredible changes. "In the early years," he recalls, "I taught such things as the proper adjustment of back bands, hame strings, and logger heads,"—all necessary knowledge for plowing with a mule, but unheard of in the day of the diesel powered tractor. Mr. Moses, who retired in May, says "shop work was done with hand saws, hand planes, chisels and mallets." The equipment of the old agriculture shop included a blacksmith forge, which has long since disappeared.

Now students work in a modern shop with electrical tools including "portable saws, table

flood the market. Now some farms may grow as many as 40,000 broilers at one time."

Mr. Moses has been active in all fields of education during his years at Fyffe. He is a past president of the DeKalb County Teachers Association and of the Alabama Agriculture Teachers Association. During the second Folsom administration he served as state senator, and roads and education were his main legislative concerns. Mr. Moses, who holds B.S. and M.S. degrees from Auburn, served 12 years on Auburn's board of trustees during the period Auburn made its greatest growth.

The many boys who studied vocational agriculture under Mr. Moses at Fyffe have different memories. For many the highlight was the annual fishing trip to Bucks Pocket, renowned as a retreat for defeated politicians and recently made into a state

"At the beginning of my teaching career, a corn yield of 40 bushels per acre was considered a very good one," Mr. Moses recalls. "Today the yield must be more than 100 bushels an acre to even cover the costs."

Mr. Moses has watched the switch from a cotton and corn economy to a diversified one. One such example is the growth of the broiler industry on Sand Mountain. "If you had even 100 broiler chicks several years ago, everybody was afraid you would

ALUMNALITIES—Continued

health. He and his wife, Barbara, now live in Washington, D.C., where he is with the headquarters of the Food and Drug Administration, U.S. Public Health Service.

Howard Hrabe is employed with a world-wide construction company in the West Indies.

H. Gerald Reynolds is a corporate attorney with U.S. Pipe & Foundry in Birmingham.

C. Wayne Jones is an assistant

project engineer in the engine performance analysis with Pratt & Whitney Aircraft in Lake Park, Fla. He and his wife, Frances, have two children, Pamela and Jeff.

Dr. and Mrs. Russell M. Brenngelman have been selected for Danforth Associates at Morehead State University at Morehead, Ky. Dr. Brenngelman is head of the school's physics department. Selected for the Danforth program, Dr. and Mrs. Brenngelman were recognized for excellence in teaching and concern for human values and quality of collegiate educational experience. They will work on improving student-faculty relationships and strengthening the learning process.

Maj. John A. Reichley is an Army ROTC instructor at Jacksonville State University.

James G. Lovell, Jr., vice president of correspondent banking of Central Bank & Trust Co. of Birmingham, will attend the School of Banking of the South at LSU next year.

Wendell W. Mitchell is administrative assistant to U.S. Senator James B. Allen.

Capt. Albert J. Moon is assigned to Tan Son Nhut AB, Vietnam, after graduating from the training course for Air Force Weapons controllers at Tyndall AFB, Fla.

BORN: A daughter, Sarah Katherine, to Mr. and Mrs. **John W. Howard, III**, (Ann Shipley) of Auburn. She joins brother Kevin, 2.

'62 Dr. **Byron E. Snell, Jr.**, D.M.D., is now with the Dental Clinic at the Naval Com-

park. (As president of the Sand Mountain Boosters Club, Mr. Moses was instrumental in the early stages of promotion of Bucks Pocket). Down in the gorge the boys fished for their supper, and just in case the fish weren't hungry carried along a big pot, bread, and the ingredients for goulash.

Others found that the equipment in the shop and the subsequent use of it gave them their first opportunities for what later developed into a career. Mr. Moses' help, the shop, and its equipment were available for them to learn and to repair a car, or truck, or a tractor, outside school hours as well as during them.

Mr. Moses has been involved in many local civic organizations and he has been a Sunday School teacher for 30 years. He and his wife, Azalia Painter '42, who teaches math and is guidance counselor at Fyffe, will continue to live in Fyffe. Now that he is retired, Mr. Moses says he is going to "work in the garden when I want, mow the yard when I want to, and read."

Dr. White, a native of Indiana, has been on the Auburn University faculty since 1965. He taught previously at Purdue University where he also received the bachelor of science in mechanical engineering, the master of science in industrial engineering, and the doctorate. Dr. White's professional experience includes three years as operations research analyst with Armour & Co., Chicago, Ill.

For Student and Engineers—

Trio Publish I.E. Textbook

Prentice-Hall has just published an industrial engineering text written by two Auburn professors and a former Auburn professor. *Operations Planning and Control* is the work of Dr. George H. Brooks, Dr. Charles R. White, and Dr. Joe H. Mize. Dr. Brooks heads the Department of Industrial Engineering, in which Dr. White is an associate professor. Dr. Mize, formerly a professor in the I.E. Department, is now with Arizona State University.

Designed as a text for courses in production control and production management, the new book will also aid the practicing professional industrial engineer.

Dr. Brooks, a member of the Auburn faculty since 1966, previously taught on the industrial engineering faculties at Purdue University and Georgia Tech. Before beginning his teaching career, he worked for the engineering service division of E. I. duPont de Nemours and Co., Inc., at its Wilmington, Del.,

plant as consultant and consultant supervisor. His professional experience has included work with the Community Hospital in Indianapolis, Ind., and with International Business Machines Corp. He is a native of Connecticut and received his B.I.E. from the University of Florida, the M.S.I.E., and Ph.D. from Georgia Tech.

Dr. White, a native of Indiana, has been on the Auburn University faculty since 1965. He taught previously at Purdue University where he also received the bachelor of science in mechanical engineering, the master of science in industrial engineering, and the doctorate. Dr. White's professional experience includes three years as operations research analyst with Armour & Co., Chicago, Ill.

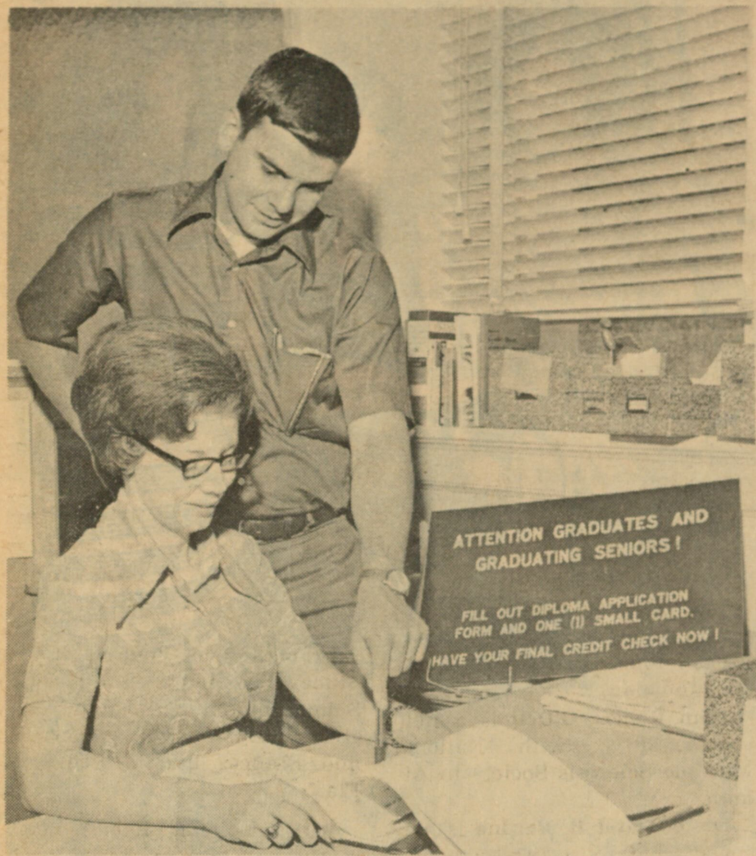

Cox Assumes New Offices

Dr. Clifton B. Cox '42 is the new president and chief executive officer of Armour Food Co. and was recently elected one of four new directors of the Greyhound Corp. at its annual meeting of stockholders.

Dr. Cox has been with Armour and Co. since 1960. He was serving as executive vice-president in charge of Armour Foods at the time of his promotion, a position he continues to hold. Dr. Cox joined Armour as director of economic research, was elected vice-president in 1963, and became group vice-president in 1967. In February, 1970, he became a director of Armour and a month later was promoted to executive vice-president.

Dr. Cox holds the B.S. and M.S. degrees from Auburn and earned the Ph.D. at Purdue where was a professor of agricultural economics before joining Armour and Co. In recognition of his distinguished academic career and later success in food manufacture and food merchandising, Auburn awarded him an honorary Doctor of Science in 1968.

Kathi Reeder Checked 13,000 Grads Before She Got to Sam

FINAL CHECK—Checking credits and quality points for graduating seniors is old hat to Kathi Reeder in the Registrar's Office at Auburn University, but this one is special. He's her husband, Sam, who received the bachelor's degree in industrial management Aug. 27. Kathi has assisted more than 13,000 seniors in making application for diplomas during her four years on the job.

ALUMNALITIES—Continued

munications Station in Washington, D.C.

William M. (Mike) Forman is territory manager for Equipment Sales Corp., the Carrier air conditioner distributor for South Alabama. He, his wife Janice, and their children, Michelle and Clark, live in Montgomery.

A daughter, Melissa Louise, to Mr. and Mrs. **William Joseph McDonald (Linda Darroh '65)** of Andalusia on July 9. She joins big brothers, Joe, 6, and Tommy, 2. William is district manager in South Alabama for State Farm Insurance Companies.

'63 F. E. (Gene) Steber recently was promoted to lieutenant commander with the Navy. He is now weapons officer aboard the USS Halsey, a guided missile frigate stationed in San Diego, Calif.

Dr. and Mrs. **Bert Hitchcock** and little son, Walter Eric, 5 months, have returned to Auburn from Durham, N.C., where he received the Ph.D. in June. Dr. Hitchcock will be an assistant professor of English in September.

Dr. and Mrs. **Emil F. Wright, Jr.**, have moved to Auburn. An ophthalmologist, Dr. Wright has opened his office in the Medical Arts Center. The Wrights have two children, Charlie, 3, and Elizabeth, 4½.

Maj. **John A. Helmlinger** is being stationed in Rolla, Mo., to work on a master's in engineering management. His wife Suzanne and children will be with him.

Will R. White is the maintenance department superintendent for the Olin Corp. at the Indiana Army Ammunition Plant in Charleston, Ind. He and

his wife, **Sue Strain '58**, and two children live in Jeffersonville.

BORN: A son, Christopher Darryl, on May 21, to Mr. and Mrs. **F. Darryl Brown** of Ardsley, N.Y. He joins sister Stephanie, 2½. . . A daughter, Joanna Lynn, to Mr. and Mrs. **Jack D. Ford (Nancy Davis '64)** of Marietta, Ga., on June 2. She joins brother Jason, 2. . .

A daughter, Lara Michael, to Capt. and Mrs. **Michael G. Kosolapoff** of Jacksonville, Fla., on June 22. . . A daughter, Kimmerly Frances, to Mr. and Mrs. **Wayne Fowler (Sandra Spann '64)** of Tampa, Fla., on June 6. Wayne is athletic director at Tampa Bay Tech High School.

'64 Gary C. Wallace is maintenance engineer with Ciba-Geigy Corp. in Mobile. In April he became a registered professional engineer in Alabama, and he and his wife Gloria have two daughters, ages 6 and 2.

Capt. **Billy C. Bearden**, a navigator, is with the 437th Military Airlift Wing at Charleston AFB, S.C.

Dr. **James W. Patterson**, an assistant professor of environmental engineering at Illinois Institute of Technology, is acting chairman of the Environmental Engineering Department. He was also recently named director of the Pritzker Environmental Studies Center. Dr. Patterson holds B.S. and M.S. degrees from Auburn and received the Ph.D. in environmental engineering from the University of Florida in 1970.

Mr. and Mrs. **Douglas K. Kidd (Peggy Hartsfield '66)** and son Dougie, 3, now live in Greensboro, N.C., where Doug has been

by Trudy Cargile
News Bureau

Graduating seniors at Auburn University are aware that somebody up there in the establishment cares.

An example is the letter from one alumnus expressing appreciation to women working in the graduation line. "Don't stop smiling," he urged for the benefit of future graduates.

Count-down for graduation can be a traumatic time for many seniors and no one is more aware of this than Kathi Reeder who has helped make the final check on more than 13,000 students during the four years she has worked in the Registrar's Office.

There are the preliminary checks on hours completed and the quality points earned by grades. Then the letter calling all prospective graduates in for the final check and the preparation of the diploma application.

Occasionally there is the student who falls barely shy of meeting the qualifications. If only one subject is involved, Kathi notifies him to take the senior privilege test. It's one last chance. Sometimes, after all efforts fail, she has to break the news that graduation is still another quarter away.

The students don't know that Kathi goes beyond the call of duty to alert them to last minute preparations, or to break the news they won't be able to graduate," says a co-worker. "If she can't get them by telephone, she goes in her own car to their homes at night to deliver the

message."

Kathi approached this commencement, Aug. 27, with more excitement than usual. It was her 16th and final one. Her husband, Sam, graduated.

"At first I was nervous as each commencement time neared, but now I've learned to take things as they come. You never know what to expect each time," says the attractive brunette.

As usual, this time Kathi went to the Coliseum early that morning to set up the signs designating where the groups of candidates for the various degrees would assemble. She double-checked the one for industrial management graduates — That's where Sam was.

She distributed index cards to the students. Each card bore the holder's name and was exchanged for a diploma case when the student advanced to the stage during exercises. Part of Kathi's job is to stand at the end of each row and check the cards.

"Sometimes the boys will try to fool me by pretending they don't have a card, or that they can't find it," she says.

The necessity for correct order keeps Kathi and other personnel from the Registrar's Office on their toes from lineup

until the students cross the stage for their diploma cases and a warm handshake from President Harry M. Philpott.

An associate jokes with Kathi about the time one co-ed in line for the processional started to faint. While others were helping her to a seat, Kathi did the practical thing. She dashed up and asked for her name. "It could have thrown the whole list of names out of line if we hadn't known who she was," Kathi explains.

"Then there are the strays—the ones who make it to commencement, but miss the processional. Tom Stallworth or I take them to a seat in our reserved section and let them sit with us. We ask them to keep up with the names on the program and get ready to jump in line in their proper place."

Kathi has about half the credits necessary for her own diploma. She has taken one course each quarter while working, adding these to the ones she earned earlier at Montevallo University.

She likes office work. That's what she was doing in Montgomery when she met Sam, who was stationed at Gunter AFB at that time. She has continued to prepare herself for office work, studying quantitative methods in statistics.

She hopes to be able to continue her studies now that Sam has graduated. And she was sure he was graduating.

"We checked it several times," she grinned.

(Nancy Yates) of Kingsport, Tenn., on June 3.

'65 J. T. Taunton, Jr., is a systems analyst on the corporate systems staff of Bowater, Inc. Located in Cleveland, Tenn., the staff serves plant locations in Tennessee, South Carolina, Newfoundland, and Nova Scotia.

MARRIED: Camilla H. Hamilton to W. R. Bracewell on March 21 in York. They live in Athens, Ga.

BORN: A son, Peter Hull, to Maj. and Mrs. Dennis A. Cavagnaro (Marguerite "Bunny" Williams) on June 21, in El Toro, Calif. . . A son, Major Allen, to Mr. and Mrs. **Mark C. Espy** of Headland. He joins sister Leslie Anne and brothers Mark, Jr., and Miles Vann.

A son, Jason Stuart, to Mr. and Mrs. **Gordon Bertron Burns (Michelle Yvonne Adami '69)** of Hendersonville, N.C., on May 21. . . A son, Patrick Clinton, to Dr. and Mrs. **Barry Lewis Wilson** on June 22. He joins brother Barry Lewis, Jr., 4, and sister Anna Cameron, 2. Dr. Wilson completed an obstetric and gynecology residency at Mobile and in July joined Dr. Felix Tankersley in the practice of obstetrics and gynecology at the Medical Plaza in Montgomery.

'66 Capt. **Arthur L. Miller, II**, is a T-37 instructor pilot at Webb AFB, Tex.

Capt. **Thomas C. Nettles** is stationed at Phu Cat AFB, Vietnam. He recently received the Air Force Commendation Medal for his work at Chandler AFB, Minn.

Dr. and Mrs. **Charles C. Hudson (Ruth Dale Hays '65)** live in Jacksonville, Fla., where he is stationed at the Naval Hospital after receiving the Doctor of Medicine from the University of Alabama in June.

Frances Hardwick Jones and children Jacqueline, 6, and John Allen, 3, are joining Dr. John Allen Jones, III, on Okinawa where he is serving with the Army after completing his internship at Grady Memorial Hospital in Atlanta.

Capt. **Stephen L. Baker** is a staff intelligence officer with the Air Force at Tan Son Nhut AB, Vietnam.

Marcas Lafayette Hickson, III, received the Ph.D. in speech from Southern Illinois University on June 11.

William P. Dunaway is new principal of Anniston High School in Anniston.

Capt. **H. Wayne Land** and his wife, **Margaret Pyle**, now live in Charleston, S.C., where he is stationed as an aircraft commander of the C-141.

Larry Harland Barwick is doing research in the Wildlife Department for the State of Florida in Gainesville. . .

Charles R. (Chip) Sanders has completed Army duty and is now

Joe Bailey, assistant cashier of Auburn National Bank, was chosen "outstanding school coordinator" for the East Alabama area by the Junior Bankers Section of the Alabama Bankers Association. The purpose of the program is to bring banking knowledge and awareness to as many children and young people as possible. Joe conducted tours at the bank and made classroom presentations at Auburn High and Auburn Univer-

Alumnus Celebrates Unusual Anniversary

(Condensed from *The Thomasville Times*)

Theodore Jackson Megginson '21 celebrated an unusual anniversary on July 4—his fiftieth year in the same business at the same location in Thomasville. Mr. Megginson grew up in Thomasville and then came to Auburn to receive a degree in pharmacy. On July 4, 1921, he went to work in People's Drug Co. His brother Clayton joined him there in 1924. They had four other brothers and all but two were connected with the drug field.

Mr. Megginson and his wife had two sons, Richard D. (Dick) '52, and J. D., Jr. (Jack). Dick followed in his father's footsteps and studied pharmacy at Auburn and later returned to enter business with his father. He and his wife Nell have two sons, Mickey and Bob. Mickey is a senior at Auburn and Bob is a freshman. Jack, who was killed in an auto accident in 1953, had two sons, Keith and Ken, who also are enrolled at Auburn. Consequently, Mr. Megginson has four grandsons at Auburn currently.

Although ill health has curtailed his activities in recent years, Mr. Megginson still checks on things at the drug store and maintains a keen interest in his beloved War Eagles. He plans to attend the 50th reunion of his class at Auburn this fall.

ANNIVERSARY—T. J. Megginson '21 celebrated an unusual anniversary on July 4—50 years in People's Drug Co. in Thomasville.

sity on topics relating to banking economics . . .

Annual Reunion Brings 200 Knights to Auburn

AT THE PARTY—Auburn Knights Alumni officers Bill Hill '42, center, and Charles Higgins '41, right, welcome trombonist Urbie Green to the Knights Friday night jam session during their reunion held in Auburn in August. Green, a well-

known jazz trombonist, has recorded with such names as Frank Sinatra and Peggy Lee. Hill, a San Diego lawyer, is president of the Knights alumni, and Higgins, of Montgomery, is treasurer. The group meets annually in Auburn.

Some 200 alumni of the Auburn Knights orchestra returned to the Loveliest Village in August for their annual reunion, bringing back the sounds of the big bands and memories of bygone days. Members of the Auburn Knights band from as far back as 1930 (and further, before it was named the Knights) came from all over the U. S. and even from foreign countries to make the reunion.

The most illustrious name from the music world to come to town was Jazz Trombonist Urbie Green, a 1943 Knights alumnus, who livened up the Friday night session with his trombone. Mr. Green, a free-lance musician, fronts his own group in New York City, and plays as a back-up man for the recording sessions of such names as Frank Sinatra, Ella Fitzgerald, Count Basie, and Peggy Lee, to name a few. Les Brown has called him "the greatest trombone player who ever picked up a horn."

Knights President Bill Hill '42 of San Diego came to town earlier in the week before the reunion, and other Knights began coming in on Friday, congregating in the Heart of Auburn motel.

Thom Botsford of the *Plainsman* staff surveyed the weekend activities for the next week's paper:

"Pres. Harry M. Philpott officially welcomed the musicians early Friday night with his surprise vocal version of 'My Blue Heaven.'"

"'Didn't know he could sing,' said one astonished Knights veteran."

"The 1971 Knights were the

first to perform Friday night, starting off with Woody Herman's swing classic, 'Woodchopper's Ball.' Four or five numbers later, the young band members began to holler for alumni participation, and gradually the 16 instrumental slots were filled with various Knights alumni. Regardless of age, they 'blew up a storm,' as Woody Herman would say.

"A glance around the room revealed the more timid Knights. 'I just haven't had time to practice,' said one alumnus explaining why he didn't join the performers. But the enthusiasm of the listeners was released in other ways:

"One crew-cut gentleman sat a good two feet from the band, nodded his head to the music and held a box-like tape recorder in front of his face for the duration of the jam."

"Dean of Architecture and Fine Arts Keith McPheeters, decked out in a shocking pink sports jacket, paced the room and talked to old friends. Dean McPheeters was once a Knights clarinetist."

"On the band stand was pianist Bill Hill, president of the Knights Alumni Association. Resembling a white Count Basie, the plump and congenial 1942 veteran produced a genuinely so-

'71 KNIGHTS—The current Knights started off the Friday night jam session. They are led by

Nat Michelson, standing with the sax. (Knights' pictures by Boone Aiken).

Knights Reunion

CONTINUED FROM PAGE 14

phisticated trickle of notes, setting the pattern for instrumental entrance into a variety of jazz classics: Duke Ellington's 'Don't Get Around Much Any More,' a few Count Basie numbers, and Horace Silver's 'The Preacher.'

"Urbie Green's trombone was the catalyst for excitement, however. Looking a bit like a French casino manager, the goateed professional happily consented to play a few numbers.

"Listen to those lip trills!" one trombone enthusiast whispered as Green ripped through some of the standard numbers. His wife Kathy, who sounded as sexy as she looked, joined the trombonist later and sang a mellow 'By the Time I Get to Phoenix' and an up-tempo version of 'Girl from Ipanema.'

Green's latest album is 'Green Power' on the Project 3 label."

During the remaining weekend the Knights enjoyed a number of jam sessions, a golf tournament and a lot of talking and reminiscing.

Earlier in the week when Knights President Bill Hill came by the *Alumnews*, he explained that the Knights Alumni have the goal of perpetuating the development of good music at Auburn, and in the process "to give back to Auburn some of the good things we got." They act as an advisory group for the present Knights and "hope to add some material things, like new arrangements to the present Knights and encourage them in their efforts."

FILLING IN—The '71 Knights band started out the session but gradually the alumni started filling in. Bill Hill is at the piano, Charlie Woods of

Atlanta (in the striped shirt just to the right of Hill) on the drums, Urbie Green on trombone, and Urbie's wife Kathy is singing.

LATER ON—Other Knights whom we were unable to identify make up the band.

Football Team Reports For A Great Season

With a later opening date than most other SEC teams, Coach Ralph Jordan's Tigers reported August 15 to begin preparation for what could be Auburn's greatest year in recent football history. The squad took physical examinations the following day and began two-a-day practice on Friday, August 27th.

This will be Ralph Jordan's 21st team, and already the other SEC head coaches have tabbed the Tigers to wear the conference crown. The prime reason for this is the return of All-Americas Pat Sullivan at quarterback and Terry Beasley at split end.

However, Jordan realizes it takes more than two players to make a championship team and he is anxious to see how his inexperienced defense and rebuilt offensive line will look in early fall practice.

"We had an enthusiastic spring and I just hope the players come back with that same willingness to work. They realize the pressure is on them and they seem to want to work hard to live up to expectations.

"We should have excellent leadership from captains Pat

Sullivan and Tommy Yearout. I especially liked the spirited way the defense played in the spring. Yearout seemed to have

a lot to do with that," Jordan said.

There were 32 lettermen among the 90-odd players reporting, fifteen of them seniors and 17 juniors. This number includes five on offense and six on defense.

In addition to Sullivan and Beasley, the other returning of-

fensive starters are Danny Speigner at left tackle, Spence McCracken at center, and Larry Hill at right guard.

The returning defensive starters are Bob Brown at right end, Mike Neel at rover, Rick Chastain and John Hayworth at inside linebackers, Dave Beck at

left sideback and Johnny Simmons at safety.

In addition, punter David Beverly and place kicker Gardner Jet, All-SEC as a non-scholarship soph last year, both return to give the Tigers a potentially fine kicking game.

Team Starts Twice-A-Day Practice Routine

Auburn's 21st football team under the direction of Head Coach Ralph Jordan hit the practice field for the first time this fall on Friday, August 27th. The Tigers drilled

twice a day in shorts on Friday, Saturday and Monday. Pads went on for the first time on Tuesday, August 31st. Morning workouts will be at 9:00, with the afternoon practices scheduled for 3:30.

Quest for Title

Jordan is anxious to get started in quest of the Southeastern Conference championship his fellow coaches have predicted for the Tigers. The Tigers open with UT-Chattanooga on Sept. 18th, but the first big game is the next week against powerful Tennessee in a regionally televised

game from Knoxville.

Spring practice ended with Terry Beasley running first at split end. Dick Schmalz and Sandy Cannon were in a neck-and-neck battle for Alvin Bresler's wingback position.

Knee Surgery

Terry Henley was in Mickey Zofko's place at tailback and Terry Page was in Wallace Clark's fullback slot. Robby Robinson had moved into Ronnie Ross' tight end position.

Danny Speigner missed all of spring practice recovering from

knee surgery. However, he is expected to go full speed from the beginning and regain his starting tackle job. Jay Casey had replaced Jimmy Speigner at left guard and Mac Lorendo, Jerry Colley and Larry Thompson were battling for the other tackle slot.

Returnees

Spence McCracken and Bill McManus started at center last year and both are back. So is guard Larry Hill and quarterback Pat Sullivan.

Defensive starters returning include safety Johnny Simmons, left sideback Dave Beck, right end Bob Brown, and linebackers John Hayworth, Rick Chastain and Mike Neel.

Danny Spanspre had an impressive spring at left end in Neal Dettmering's old spot. Tommy Yearout was elected alternate captain and made plays from sideline to sideline from his tackle position.

Benny Sivley managed to hold off Larry Taylor at the tackle spot left by Keith Green. Philip Gilchrist and David Langner competed fiercely for Larry Williamson's job. Bobby Strickland's position was in the hands of sophomores Mike Flynn and Jim Sirmans.

Jordan usually starts fall practice the way things ended up in the spring. And usually it takes just a practice or two for the players themselves to start causing some depth chart changes.

Tickets Go On Sale

by David Housel

Bill Beckwith, Auburn's manager of ticket sales, reports that hundreds of thousands of the little 2 x 4½ sheets of multi-colored paper hit the mail Monday, August 30, and purchasers of Auburn football season tickets began receiving them later in the week.

The Tigers, sporting such glittering star attractions as Pat Sullivan and Terry Beasley, have attracted ticket buyers by the droves for the third straight year. Auburn has sold 36,000 season ticket books, a record high.

Beckwith emphasized, however, that tickets are still available for all of Auburn's home games on a season or individual basis.

"There is an ample supply of tickets remaining to our game with Florida on Oct. 30," Beckwith said, "and plenty of tickets are available for our other five home games."

In addition to the Oct. 30 Florida game, Auburn plays Chattanooga (Sept. 18); Kentucky, (Oct. 2); Southern Miss. (Oct. 9); Clemson (Oct. 23); and Mississippi State (Nov. 6) in their 61,000 seat Cliff Hare Stadium.

The Clemson game is homecoming.

All tickets are \$7.00 except the Chattanooga ticket which is \$5.00. Season books containing one ticket to each home game costs \$40.00 per book and will be on sale through the opening game. All tickets may be ordered from Football Tickets, Auburn Athletic Department, Box 351, Auburn, Alabama 36830.

All of the Tigers away games, Tennessee, Georgia Tech, Georgia, and Alabama, are sellouts, Beckwith reported.

For Wrestlers—

Tough Schedule Ahead

The Auburn University wrestling Tigers will face one of the toughest schedules in their history next year with two quadrangular meets and four dual meets on the road. The Tigers will compete only four times on the home mats, with a quadrangular meet Dec. 4 and three dual meets in Auburn.

Wrestling Coach Arnold Umbach is optimistic about the coming season and the chances for a conference title.

"I think we recruited some super wrestlers this spring," said Umbach, "and along with the boys who were only freshmen and sophomores last year, we should be in good shape

next season."

Of the four scholarships given last year, three produced finalists in the 1971 SEC tournament, two seconds and one champion.

Umbach's squad will begin the season November 26-27, the weekend of the Auburn-Alabama football game, in Chattanooga, competing in a tournament which always attracts national champions from the previous year.

WRESTLING SCHEDULE 1971-1972

Nov. 26 & 27—Chattanooga Tournament	Chattanooga
Dec. 4—Quadrangle Meet (L.S.U., Georgia, Troy State)	Auburn
Dec. 10 & 11—Georgia Tech Tournament	Atlanta
Dec. 27, 28, 29—Sunshine Open Tournament	Miami
Jan. 6—Tennessee	Knoxville
Jan. 8—Quadrangle Meet (NCS, Citadel)	Raleigh, N. C.
Jan. 14—Georgia Tech	Auburn
Jan. 15—Florida	Auburn
Jan. 21—Alabama	Auburn
Jan. 24—Florida (3:00 p.m.)	Gainesville
Jan. 29—Quadrangle Meet (L.S.U., Tennessee, MacMurry College)	Baton Rouge
Feb. 4—Georgia	Athens
Feb. 11 & 12—S.E.I.W.A.	Maryville
Feb. 19—Alabama	Tuscaloosa
Feb. 25 & 26—Southeastern Conference	Knoxville
March 9, 10, 11—NCAA Championships	College Park, Md.

THE AUBURN ALUMNEWS

Grants-in-Aid Go to Five Auburn Players

Varsity lettermen linebacker Steve Wilson of Huntsville and four non-scholarship freshman starters from a year ago have been signed to Auburn football grants-in-aid, according to an announcement by Head Coach Ralph Jordan. The four frosh starters are David Ferguson of Prattville, Johnny Sumner of Eufaula, Bill Newton of Fayette, and Tom Gossom of Birmingham.

These five Tigers thus join a long list of highly successful players who came to Auburn without scholarships and earned

them. Some of the All-SEC players of recent years who earned grants are Bobby Strickland, John Riley, Tommy Lunceford, two-time captain Gusty Yearout and national lineman of the week, linebacker Sonny Ferguson.

Wilson actually started three games last fall when the regular

linebackers were injured and the Tigers won all three, Clemson, Georgia Tech and Florida.

David Ferguson started at both tailback and rover linebacker on the 1970 freshman team. He was the team's No. 3 rusher even though he played offense in only two games.

Sumner started every game at offensive guard and is considered by the coaches to be one of the best pass protection blockers on the squad. Bill Newton is the

twin brother of sophomore defensive tackle Bob Newton. Bill made an impressive showing late in the spring and is being counted on heavily at linebacker this fall.

Gossom was a starting wide receiver for the 1970 frosh. He began this past spring in the secondary and played both sideback and safety. He intercepted three passes in two scrimmage games. He moved over to offense the last two weeks and was just as

impressive as a wide receiver.

Coach Jordan was very happy about signing the five players. "This is in keeping with our policy of helping the players who come here on their own and make good. These boys have worked hard and have already contributed to Auburn football. We think they should all help the varsity this fall.

"Quite a few players have made good for us this way and this policy will continue to prevail in the future."

Wendy and Joanne—The Girls in Terry Beasley's Life

by Lind Bruce
Opelika-Auburn Daily News

When she was born she weighed 8 pounds and 8 ounces and immediately became the apple of her daddy's eye—because his lucky number is 88. This little four-month-old doll's name is Wendy. Wendy and the number 88 belong to Terry Beasley.

"Wendy grabbed Terry's hand the first time she saw him," said Joanne Beasley, Wendy's pretty young mother.

And from that day forward, Wendy became the star player in this famous football family.

Joanne first met Terry by chance when she was eating lunch with some friends in a Krystal restaurant in Montgomery. At that time, Joanne did not know a great deal about Auburn University football, because her family leaned toward the University of Alabama.

"My father was once a coach," explained Joanne. "He had sent several players to the University and therefore naturally supported the University. But you will

never get him to admit this now."

Joanne finds her life as Mrs. Beasley quite exciting. She is constantly meeting new people and going places. In fact, she took her first plane ride when she went to the Gator Bowl.

According to Joanne, taking care of Terry is a full-time job. She tries to plan her routine around his.

"Our life is football," said Joanne. "We live, sleep, and practically eat football."

Joanne and Wendy attend practically every scrimmage.

"Terry never seems to be satisfied with his performance," said Joanne. "He is always asking me how he did. Of course, I think he is fabulous every time."

Joanne also finds that Wendy is exactly like Terry in every way. Wendy has big blue eyes and her hair is turning red.

Terry takes special time out of his busy schedule to play with Wendy. He walks her up and down the trailer park every day and at four months, Terry has taught his little daughter to stand up.

One day Terry took Wendy to Sewell Hall to have lunch with some of the boys.

Terry and Joanne decided to have children while they were young so that they would be able to enjoy them and still have time to travel after the children are grown.

"I really respect Terry," said Joanne. "Once he starts some-

thing, he will never let it go until it is finished. Terry said that if he ever had boys and they decided to play football, the boys would continue to play once they began."

Joanne hopes that she and Terry will always be involved with football.

"I would like to see Terry play pro football," said Joanne. "His three main goals in life have been to go to college, be selected All-American, and be a coach. I really hope that he will get a chance to coach some day."

Coach Ralph (Shug) Jordan has played an important part in the Beasley family's life.

"Coach Jordan is like a father to me," said Joanne. "We see a good bit of him and

brought some corn back to him after our trip to Mobile. Coach Jordan is interested in people and is very close to the boys."

Terry, besides playing football, does find time to play a little golf and ride horses occasionally. He also carries a full class load which keeps him very busy.

"We get together with the other players and their wives," said Joanne. "They bring the children along, too. It really is funny that all the children are boys, except for Wendy and Pat Sullivan's Kim."

Kim and Wendy have formed a duo much like their fathers'. Both little girls have fun playing together.

And so it goes, life with father can be quite interesting.

LUCKY 88—Mrs. Joanne Beasley seems to have a lucky number. Her husband, Terry, is No. 88 on Auburn's football team and their daughter, Wendy, weighed in at 8 pounds, 8 ounces, when she was born. Both will be watching their All-American from the sidelines this fall. (Photo courtesy Opelika-Auburn News.)

HONORED—Alumni W. C. Rotenberry '41 (left) and C. C. Lee '47 have been honored by the Alabama District Exchange Clubs. Mr. Rotenberry was elected the Outstanding Exchangeite in recognition of his continuous efforts in Exchange Club activities (including holding the post of District president) for the past 11 years. Mr. Lee is the new district president. He has been active in the educational programs of the group and is now serving his second term on the National Committee on Education of the National Exchange Club. Both Mr. Rotenberry and Mr. Lee live in Huntsville. Mr. Rotenberry retired from Federal Service after 28 years in June, 1970, and is now in insurance and vending businesses. Mr. Lee is director of programs for Thiokol Chemical Corporation's Huntsville Division.

Alumni In The News

Palmes White

Howard E. Palmes '60 became planning manager recently at South Central Bell Telephone Company's headquarters in Birmingham. He formerly was government communications supervisor. Mr. Palmes began his telephone career in Mobile in 1956 as a co-op student and has worked in various positions since.

Hedy White '71 placed third in the Miss Alabama Pageant at Birmingham on June 26. As Miss Lee County, Hedy presented an original monologue and six original oil paintings. She was first runnerup in last year's Miss Georgia Pageant. Now a substitute teacher in Lee County, Hedy plans to enter graduate school this fall. While a student at Auburn, she served on the Student Advisory Council, was active with the Student Government Association and was a member of the yearbook staff.

A MOMENT TO REMEMBER—John Stair '49, right, had a moment to remember following graduation exercises at the Okaloosa Walton Junior College on May 2. Student body officers presented him a plaque reading "to John Stair for unend-

ing patience and understanding." Mr. Stair has been a counselor and director of student activities at the junior college in Niceville, Fla., for the past six years. He, his wife, and two children, live in Milligan, Fla.

News of Auburn Clubs

The Jacksonville Area Auburn Club held a re-organizational meeting on June 9 at Jacksonville, Fla., with 18 alumni present. The new officers elected were: president, Richard (Rick) Lee Dowdey '64; first vice president, Thomas D. Price '69; second vice president, William F. Ledyard, Jr., '67; secretary, W. Walter Wheeler, Jr., '67; and program chairman, Jerry Dewitt Watson '62.

The Cape Kennedy Auburn Club of Brevard County, Florida, met on May 29 at a dinner meeting with Coach Gene Lorendo as the principal speaker. He spoke on spring practice and the prospects of the Auburn team for next season.

The Baldwin County Auburn Alumni Association met on May 13 and elected the following new officers: president, Steve McMillan '64; vice president, Teal Corte '61; secretary, Dr. Ralph Savage '64; and treasurer, Mrs. Ruby Haupt '41.

The Tampa Bay Area Auburn Club met on May 27 at a dinner meeting where Dr. Philpott spoke to 105 alumni and friends. New officers elected were: president, Dr. Allen L. Harris '56; vice president, Anthony (Tony) J. Borrell, Jr., '64; secretary, J. Robert (Bob) Bishop '56; and treasurer, Lucius M. (Jake) Dyal, Jr., '59.

The Greater Charleston Auburn Alumni Association held its annual meeting on April 27 in Charleston, S. C. About 60 alumni and friends saw a film of the 1970 Auburn-Alabama game and elected new officers. Those elected are: president, Beeman B. Bond '56; vice president, Hugh Hiott, Jr., '65; secretary, Dr. Walter Newman '62; treasurer, Edmond Pop '63; reporter, Mrs. Jack C. Reid '49; and historian, Mrs. Jean B. Bond, '55.

The MORGAN-LIMESTONE COUNTY AUBURN CLUB met on Aug. 19 in Decatur at the Mallard Point recreation area for "Shug Jordan Day." Approximately 600 persons enjoyed the family outing and heard speakers Coach Shug Jordan and Alumni President Jimmy Brown. New officers elected are: president, L. Denton Cole, Jr. '52; vice president, Robert Horton '52; vice president, Gene Moore; secretary, Battle King Hamilton '57; and treasurer, Edward N. Price '27.

The MARENGO COUNTY AUBURN CLUB met on Aug. 4 in Demopolis at the Community Center. Approximately 85 persons attended the dinner meeting and heard Coach Paul Davis, and met Frank Young, the new assistant football coach at Auburn. Austin Caldwell '49, the club president, presided at the meeting.

The WEST CENTRAL ALABAMA AUBURN CLUB met on Aug. 12 at the Elk's Club in Selma for a dinner meeting at which Coach Gene Lorendo spoke. About 110 alumni and friends attended. Club President Bob Owens '59 presided.

The PANAMA CITY AUBURN CLUB met on July 30 for a dinner meeting and heard speakers Coach Shug Jordan and Jimmy Brown, alumni president. About 150 persons attended and elected new officers. New officers are: president, Joseph W. Horn, Jr. '62; vice president, Billy Ross Hutto '68; and secretary-treasurer, Stanley M. Worsham '39.

The NORTH TEXAS AUBURN CLUB met on Aug. 6 in Arlington, Tex., for dinner and to hear speaker Coach Gene Lorendo. The 45 attending also saw the Gator Bowl film. George (Chuck) Dykes '45 presided.

The NEW ORLEANS AUBURN CLUB met on Aug. 5 at a dinner meeting at the Fon-

MEMPHIS MEETING—At its summer meeting, members of the Memphis Area Auburn Club got a rundown on the football prospects for this coming season from Gene Lorendo, Auburn Offensive Coach. Shown here at the meeting (left

to right) are Ralph G. Patterson '48, club president; Bill Luka, upcoming sophomore linebacker; Coach Lorendo; and Dave Beck, upcoming junior defensive back. Luka was signed out of Memphis's Catholic High.

tainbleau Motor Hotel to hear Associate Alumni Secretary Buck Bradberry speak, and to see the Auburn-Alabama football film. About 60 persons attended. Steve Weissinger '31 presided.

The MONTGOMERY AUBURN CLUB met on Aug. 17 at the Cloverdale Community Center for a barbecue and to hear speakers Coach Gene Lorendo and Coach Paul Davis. About 350 persons attended with club president, Bolling P. Starke, Jr., '60, presiding.

The CHATTANOOGA AREA AUBURN CLUB celebrated "Shug Jordan Day" with a dinner meeting on Aug. 20. Coach Jordan spoke to a sell-out crowd of 260 persons. Special guests were: Terry Beasley, Ronnie

Ross, Bill McManus, Bill Romans, and Associate Alumni Secretary Buck Bradberry. Jack Anderson '47, club president, presided.

The COLUMBUS, GA., AREA AUBURN CLUB met on Aug. 24 at a dinner, with Coach Shug Jordan as speaker. Approximately 200 alumni attended and elected new officers. They are: president, Walter Wright '47; vice president, Robert Berry '49; and secretary-treasurer, Don Hunter '40.

The QUAD-CITIES AUBURN CLUB met on June 10 at Florence for dinner and to hear Coach Paul Davis and Buck Bradberry, associate alumni secretary. The 160 alumni and friends elected new officers. They are: president, Frank Hamm '38; vice president, Leslie Adams '48; and secretary-treasurer, Charles Sasser '60.

The NORTHWEST GEORGIA AUBURN CLUB met in Rome, Ga., on July 27 at the Coosa Country Club. The 180 persons attending heard Coach Shug Jordan and Associate Alumni Secretary Buck Bradberry and elected new officers. New officers are: president, Jack McGuffie '59; vice president, Bob Frazier '58, and secretary-treasurer, Artie Robinson '50.

The newly-organized CULLMAN COUNTY AUBURN CLUB met Aug. 5 to celebrate "Don Bristow Day." A banquet honoring the former Hanceville High School star, now one of Auburn's great defensive tackles, brought together about 300 persons who came to pay tribute to Don. Bobby Freeman, assistant football coach, was guest speaker. Other special guests included Don's football teammates Pat Sullivan, Tommy Yearout, Terry Page, Rusty Fuller, Tommy Lowry, Benny Sivley, Terry

Henley, and Mike Neel. At the dinner Don received a trophy plus a \$1000 check. The program also included a film on Auburn Football Highlights.
